Attention: Mr. Wayne C. Hazen, Director  
Metallurgical Laboratory

Gentlemen:

Reference is made to your application of December 8, 1960, for a license authorizing processing of a total of 25 tons of uranium ore during a period of three months.

Before we may complete our review of your application we require the following information:

1. The names and technical qualifications of the individuals who will be responsible for radiological safety.
2. A description of operations you will perform such as crushing, grinding and ore handling that might result in airborne radioactivity.
3. Equipment and procedures for dust control and air surveys that will be used to assure that operations will be performed in compliance with 10 CFR 20, Sections 20.101(b) and 20.103(b).

Very truly yours,
