Gentlemen:

In accordance with your application dated February 15, 1966, the expiration date for AEC Source Material License No. STB-489, as renewed March 9, 1965, is hereby extended to June 30, 1968.

All other conditions of this license shall remain the same.

In connection with your anticipated request for termination of this license, please include a report on the contamination levels remaining on buildings and equipment at your facility. In this regard, we believe that you should meet the conditions specified in the enclosure in order for the Commission to approve transfer or use of the buildings and equipment without the need for an appropriate source material license.
