Mr. John P. Potter  
Radiation Officer  
Kerr-McGee Oil Industries, Inc.  
Route 1, Box 569  
Golden, Colorado

40-6175

*Suppl. Only*

Dear Mr. Potter:

It is true that we have developed some suggested standards for what constitutes "respirable dusts" and turned them over to the Division of Licensing and Regulation.

However, the use of this information in the interpretation of CFR Title 10, Part 20, "Standards for Protection Against Radiation," is strictly in their bailiwick so I'm turning over your inquiry and offer to them. I am sure that you will hear from them in a few days.

Sincerely yours,

Donald M. Ross, Acting Chief  
Health Protection Branch  
Division of Operational Safety
