Dear Dr. Glenn:

This letter is in reference to our U.S. Nuclear Regulatory Commission Materials License #29-18129-01. As of Monday, December 30, 1985 the location of our office will be changed from 34 Center Street, Springfield to 2333 Morris Avenue, Suite #B-9, Union, New Jersey 07083. We would like to have our license amended so that it will reflect this change of location. Enclosed you will find a copy of the layout of our new office including where the new room for the scanner will be situated. Inside this room the specific placement of the equipment and shielding of the reference isotopes will be exactly the same as it is presently in our Springfield office. Once the move has taken place we will forward to you a close out survey from the Springfield office. Enclosed is the required \$120 fee for processing this amendment.

Thank you for your time and consideration.
