Mr. Charles E. MacDonald
Chief, Transportation Branch
Division of Materials & Fuel Cycle Facility Licensing
United States Nuclear Regulatory Commission
Washington, D.C. 20555

REFERENCE: Nuclear Packaging, Inc QA System Approval No. 0192,
Rev 1.

ATTACHMENT: Pacific Nuclear Systems/Nuclear Packaging, Inc
(PNSI/NUPAC) 10CFR71, Subpart H, QA system synopsis
No. QA-78-1, Rev 4.

SUBJECT: Application for renewal of Approval No. 0192 for the
10CFR71, Subpart H, QA system utilized by PNSI/NUPAC.

Dear Mr. MacDonald:

As we have discussed in our telecons, this letter is forwarded to
your office to request renewal of the existing approval No. 0192
for the Nuclear Packaging, Inc. QA system.

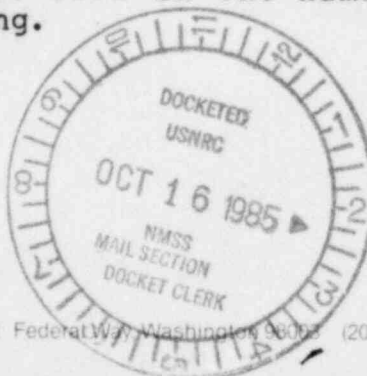

As you know, the Nuclear Packaging, Inc. 10CFR71, Appendix E, QA
system was issued Approval Number 0192 on 9/12/80. It was up-
dated to reflect Subpart H and issued Approval 0192, Rev 1 on
9/3/83. The current approval will expire on December 31, 1985.

There has been a change in the corporate structure since the
original approval. The corporation under which Nuclear Packaging
operates is now Pacific Nuclear Systems, Inc. The general organ-
ization, reporting relationships, and activities of Nuclear
Packaging, Inc. have not changed. The QA system pertaining to
Approval No. 0192 has been implemented throughout Pacific Nuclear
Systems, Inc.

The attached revised synopsis of the QA System addresses the
original NUPAC QA System as it now exists for Nuclear Packaging,
Inc. and Pacific Nuclear Systems, Inc.

Because of the change in corporate structure, please issue the
renewal of Approval No. 0192 in the name of Pacific Nuclear
Systems/Nuclear Packaging.
