MAR 18 1982

MEMORANDUM FOR: John G. Davis, Director, Office of Nuclear Material  
Safety and Safeguards

FROM: Ronald C. Haynes, Regional Administrator, Region I

SUBJECT: REGULATORY IMPROVEMENT IN MATERIAL LICENSING

This refers to your memorandum of March 8, 1982 on the same subject. The efforts of you and your staff to make the licensing process more efficient through regulatory improvement are most appreciated. I strongly support the program to codify and streamline the licensing process and look forward to Dr. Walker's visit. Region I is prepared to actively participate in the planning and implementation of these improvements.

James H. Joyner, Chief, Technical Inspection Branch, will attend the briefing in Silver Spring by Dr. Walker on Thursday, March 25, 1982. Dr. John Glenn of the Region I Licensing Section will also attend this briefing.

My staff has reviewed the February 26, 1982 draft revision of 10 CFR Part 35. Comments on the draft are being sent to the Material Licensing Branch by separate memorandum.
