Subject: Determination for Withholding Topical Reports From Public Disclosure

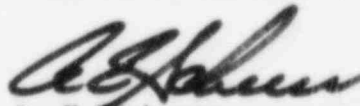

Dear Mr. Berkow:

In your letter dated January 8, 1985, you provided a list of topical reports and requested that Combustion Engineering advise you whether they still qualify for withholding in that they contain proprietary information. Combustion Engineering has completed a review of these documents and has determined that all of the listed documents contain information which is still considered proprietary. When and if any of these documents is downgraded, Combustion Engineering will inform you.

If you have any questions, please contact me or Mr. J. E. Rogers of my staff at (203) 285-5204.

Very truly yours,

COMBUSTION ENGINEERING, INC.
