Gentlemen:

This is in reference to your letter dated October 1, 1985 informing us of the new location of your facility and requesting an amendment to NRC License Number 48-20304-01.

We have reviewed your request and find that we need the following additional information:

1. State how the moisture gauge will be secured from unauthorized use or unauthorized removal when stored at your facility on Meade Street.
2. Submit a copy of Mr. Leitzke's certificate from Troxler Electronic Laboratories, Inc. showing that he has successfully completed their training program for gauge users. It appears that Mr. Leitzke has been assigned the duties of Radiation Protection Officer for A-Tech, Inc., however, we do not have documentation of his credentials in our files.

We will continue the review of your request upon receipt of this information. Please reply in duplicate within 30 days and reference Control No. 79869.
