Clifton, NJ
Cambridge, MA
Elmsford, NY

Reference: NRC Control No. 51439; ATI-VR-001-P
"ATI Volume Reduction and Bitumen
Solidification System" Topical Report

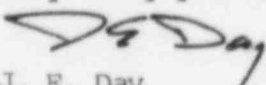

Dear Mr. Miller:

ATI recognizes our obligation to reimburse the NRC for review costs. Prior to payment, ATI would like to confirm that the review of the supplements fall under the same review budget. Supplement No. 1 covers the identical process converted to a transportable configuration. Supplement No. 2 more clearly describes the product produced by the above referenced report. Enclosed is a cover letter for Supplement No. 2 which references a March 22, 1985 meeting with the Office of Nuclear Reactor Regulations.

During the meeting it was stated that Supplement No. 2 review is enveloped by the original Topical review budget.

Thank you for your attention to this detail.

Very truly yours,

J. E. Day
Executive Vice President

JED/sec

cc: Janet Rodriguez (Division of Accounting and Finance)
