Mr. Donald A. Nussbaumer
Assistant Director
State Agreements Programs
Office of State Programs
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Nussbaumer:

This Department has reviewed the proposed revisions to 10 CFR Part 35 and Reg Guide 10.8. The only concern which this Department might address would be the expansion of the transportation exemption allowed currently for physicians. This Department would recommend that only properly trained supervised individuals be allowed this expanded exemption.

It appears that much thought and careful consideration went into the revision of these rules and the Reg Guide and this Department concurs with the proposed revisions.

Sincerely,

Dana K. Mount, P.E.
Director, Division of
Environmental Engineering
