Re: License No. SUB-908
Docket No. 040-07604

Subject: Mixed Waste Pond Closure Project
Field Change No. 011

Dear Sir:

In accordance with the mixed waste pond closure project field change approval procedure (BPCI Administrative Procedure AP-02), BP Chemicals, Inc. (BPCI) herewith submits for NRC review proposed Field Change No. 011. This field change revises Project Specification 13200 to correct the maximum allowable carbon black content and to correct number of coupons required for destructive testing of geomembranes. The errors being corrected are typographical errors made during previous rewrites of this specification. These revisions will make the specification consistent with the QA/QC Plan.

Included for your review are revised pages 13200-3 and 13200-10 of the specification.

A copy of this field change request is also being submitted to Ohio EPA. If there are any questions, please give me a call at (419) 226-1299.

Sincerely,

William M. Rupert, PE
Project Manager
