Director, Office of Nuclear Reactor Regulation
Attention: Mr. G. E. Lear, Director
PWR Project Directorate No. 1
Division of PWR Licensing - A
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

Subject: Docket No. 50-206
Environmental Review for License Conversion
San Onofre Nuclear Generating Station
Unit 1

- References: 1) Letter D. M. Crutchfield (NRC) to R. Dietch (SCE), dated
November 5, 1982, Environmental Review for License Conversion
- 2) Letter K. P. Baskin (SCE) to D. M. Crutchfield (NRC), dated
December 28, 1982, Environmental Review for License Conversion

By Reference 1, the NRC requested that Southern California Edison (SCE) review the existing Final Environmental Statement (FES) for San Onofre Unit 1 to identify significant changes to the San Onofre facility or the environs that would affect the conclusion reached in the Unit 1 FES. By Reference 2, SCE informed you that the requested information would be provided after completion of the NRC's Integrated Safety Assessment.

Enclosure I to this letter summarizes the results of our review of the San Onofre Unit 1 FES in the light of currently available information. Based on these results, we conclude that no significant changes to the October 1973 FES conclusions are necessary.

If you need any further information, please contact me.

Very truly yours,

M. O. Medford
