

VOID SHEET

TO: License Fee Management Branch

FROM: RIII - _____

SUBJECT: VOIDED APPLICATION

Control Number: 302301

Applicant: Wright State University

License Number: 34-11912-03

Docket Number: 030-15160

Date Voided: April 1, 1997

Reason for Void: The January 30, 1997 letter which was processed in as a new amendment application was in fact a "hard copy" of a deficiency response letter for amendment No. 29, signed January 30, 1997. (See Control No. 301990)

SUBJECT: ACKNOWLEDGEMENT OF CORRESPONDENCE
(Letter Dated 01/30/97)

Dear Licensee:

In response to your request, we have completed the initial processing, which is an administrative review of your application for a(n):

☐ New License ☒ Amendment ☐ Renewal
☐ Termination ☐ Auth User (Amendment not required)
☐ Other _____

No administrative deficiencies were identified during this initial review. However, it should be noted that a technical review may identify omissions in the submitted information.

It appears that your request is routine (see i-3 below, as applicable).

1. New and amendment actions are normally processed within 90 days, unless we find major deficiencies, or policy issues requiring central program office assistance.
2. Renewal actions are normally processed within 180 days, however, under timely filing (before expiration), you may continue to operate under your existing license.
3. Termination actions are normally processed within 90 days, unless confirmatory surveys following decontamination/decommissioning activities are involved.

A copy of your correspondence has been forwarded to our Licensing Fee and Debt Collection Branch (301/415-6097) for approval of the fee category and amount, if required.

If you have a compelling safety or business-related reason for requesting expedited review, please contact the Materials Licensing Branch at (630) 829-9887. We will try to complete your request as soon as practicable. Any correspondence about this request should reference the control number.

License No. 34-11912-03
Control No. 301990

Dear Mr. Weber:

Presently, Wright State University must amend its radioactive materials license each time membership of the Radiation Safety Committee changes. We request to amend the license to give the university authority to approve new members, which will streamline the approval process for both the university and the NRC. The composition and qualifications of the committee membership as shown below will represent each group of users of radioactive materials and radiation-producing devices. Radiation-producing devices are under the authority of the committee, but are not regulated by NRC.

Chair - Authorized User, preferably from the Biomedical Sciences Program
Representative of Management
Radiation Safety Officer
Two Authorized Users from the School of Medicine
Two Authorized Users from the College of Science and Mathematics
One or more Authorized User(s) for Radiation-Producing Devices

A quorum will consist of the committee chair, Radiation Safety Officer, management representative, at least one committee member representing the group from which the radioactive material request originated, and, if needed, any other committee member possessing the expertise and familiarity necessary to ensure all relevant safety concerns have been addressed.

An Authorized User is a departmentally-affiliated member of Wright State University authorized by the Radiation Safety Committee to use radioactive material or radiation-producing devices independently and to supervise subordinate users. A prospective Authorized User must possess at least a bachelors degree in the physical or biological sciences and have 40 hours of training and experience using radiation sources similar to their proposed use.

The Chair of the Radiation Safety Committee and Radiation Safety Officer are named on the Nuclear Regulatory Commission license. A license amendment is required to change committee members serving in either of these capacities.
