Gentlemen:

Subject: Inspection No. 85-01

This refers to your letter dated December 9, 1985, in response to our letter dated November 20, 1985.

Thank you for informing us of the corrective and preventive actions documented in your letter. We note that the schedule for performing physical inventories of your sources, which was included with your November 20, 1985 letter, appears to schedule inventories at a seven-month interval. Condition 19 of your NRC license requires a physical inventory of these sources every six months. You are advised that you must adjust your schedule to assure that these inventories are performed at the proper frequency. These actions will be examined during a future inspection of your licensed program.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
