

NOV 21 1985

MEMORANDUM FOR: John G. Davis, Director
Office of Nuclear Material Safety and Safeguards

THRU: Richard E. Cunningham, Director
Division of Fuel Cycle and Material Safety

FROM: W. T. Crow, Acting Chief
Uranium Fuel Licensing Branch

SUBJECT: ITEMS OF INTEREST

Nuclear Fuel Services, Inc. (NFS)

On November 19, 1985, members of the ELD, SP, and NMSS staff met with representatives of DOE to discuss Nuclear Assurance Corporation's (NAC) request for NRC's approval of the purchase of NFS, Erwin, Tennessee. It was determined that additional information related to NAC's financial condition is needed to complete NRC's review. The NRC will request this information from the NAC.

Massachusetts Institute of Technology (MIT)

On November 13, 1985, Materials License No. SNM-986, issued to MIT, was renewed for a full 5-year term. This renewal also incorporates two other MIT Materials licenses into SNM-986. These licenses were subsequently terminated. The SNM-986 license authorizes MIT to use the licensed material for research and teaching purposes.
