MEMORANDUM FOR: John G. Davis, Director
Office of Nuclear Material Safety and Safeguards

FROM: Richard E. Cunningham, Director
Division of Fuel Cycle and Material Safety

SUBJECT: PROGRESS REPORT ON 10 CFR PART 35

This is in response to your memorandum of December 20, 1983 that asked for a monthly progress report on 10 CFR Part 35.

Comments were due March 30, 1984. Comments from ELD were not received until May 7, 1984. Comments from RES were not received until May 10, 1984. The cognizant individuals from both of those offices have left the agency. The ELD replacement has been on vacation since mid May and will not return until June 13, 1984. The number of comments was much greater than expected; we have received 105 pages of comment from 12 NRC offices and 11 Agreement States. We are continuing to revise the package to reflect comments.

Original Signed by
Richard E. Cunningham
