

## MATERIALS LICENSE

Amendment No. 04

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to the applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Amendment No. 04

- D. Creagh E. Milford, D.O., for material in 10 CFR 35.100 and 35.200 (limited to cardiovascular clinical procedures).
- E. Leighton M. S. Lum, D.O., for material in 10 CFR 35.100 and 35.200.
- F. Kenneth P. Tarr, D.O., for material in 10 CFR 35.100 and 35.200.
- G. Reese J. James, D.O., for material in 10 CFR 35.100 and 35.200.
- H. Robert M. Katz, D.O., for material in 10 CFR 35.100 and 35.200.
- I. Richard F. Grzybowski, D.O., for material in 10 CFR 35.100 and 35.200.
- J. Eduard V. Kotlyarov, M.D., for material in 10 CFR 35.100 and 35.200.
13. The licensee is not required to have a Radiation Safety Committee described in 10 CFR 35.22. The Radiation Safety Officer may make radiation safety program changes permitted by 10 CFR 35.31 with the advise and consent of the licensee's management.
14. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d) for establishing decommissioning financial assurance.
15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below, except for minor changes in the medical use radiation safety procedures as provided in 10 CFR 35.31. The Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
- A. Application dated May 18, 1990; and
- B. Letters dated February 1, 1996 (excluding Items 1, 2, and 5), April 4, 1996 and November 29, 1996.

To Whom it May Concern:

Please make the following amendments to our Materials License #21-26196-01

1. Add the following physicians from Materials License #21-04081-03:

Martin Thomas Rasp, D.O.  
David A. Kellam, D.O.  
Donald R. Klein, D.O.  
Creagh E. Milford, D.O.  
Leighton M.S. Lum, D.O.  
Kenneth P. Tarr, D.O.  
Reese J. James, D.O.  
Robert M. Katz, D.O.  
Richard F. Grzybowski, D.O.  
Eduard V. Kotyarov, M.D.

2. Please make Dr. Richard F. Grzybowski our new radiation safety officer.

3. Delete the following physicians:

Raymond Sneider, D.O.  
Stanley Halprin, D.O.  
Allen Russell, M.D.  
Virginia S. Ventura, M.D.  
J. David Cole, M.D.  
Leon, Dunn, M.D.

4. Enclosed please find a map of our future location. Our expected date of operation in this location is approx March 1, 1997. The address will be:

Medical Diagnostic Laboratory  
Pontiac Medical Bldg.  
1701 Baldwin Road, Ste. LL1  
Pontiac, MI 48340

Upon movement to new location please delete former address:

Cynthia Clemons  
Office Coordinator  
Hospital HealthCare, Inc.  
d/b/a Medical Diagnostic Laboratory  
Pontiac Medical Building  
1701 Baldwin Road, Suite LL1  
Pontiac, MI 48340

Dear Ms. Clemons:

Enclosed is Amendment No. 04 to your NRC Material License No. 21-26196-01 in accordance with your request.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please be advised that the enclosed amendment authorizes the use of your new nuclear medicine facility at 1701 Baldwin Road in Pontiac, Michigan. Also, as we discussed on March 18, 1997, License Conditions No. 13 and 15 were deleted from your license and License Condition No. 14 was added. However, we cannot, at this time, authorize you to free release your old nuclear medicine facility at 2709 Pontiac Lake Road in Waterford, Michigan. You must submit a close-out of the areas where byproduct material was used and that survey must receive NRC approval in order for those areas to be released for unrestricted use (see enclosed "Information that Should be Submitted to the NRC Staff for Decommissioning and Termination of Licensed Facilities" with four attachments). Please submit the requested information as additional information, within 30 days, to Control No. 302193 to preclude an additional fee.

Please be advised that your license expires at the end of the day, in the month, and year stated in the license. Unless your license has been terminated, you must conduct your program involving byproduct materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.

302193

2. Notify NRC, in writing, within 30 days:
  - a. When an authorized user or Radiation Safety Officer permanently discontinues performance of duties under the license or has a name change; or
  - b. When the licensee's mailing address changes (no fee is required if the location of byproduct material remains the same).
3. In accordance with 10 CFR 30.36(b) and/or license condition, notify NRC, promptly, in writing, and request termination of the license when you decide to terminate all activities involving materials authorized under the license.
4. Request and obtain a license amendment before you:
  - a. Receive or use byproduct material for a clinical procedure permitted under Part 35 but not permitted by your license issued pursuant to this Part;
  - b. Permit anyone, except individuals described in 10 CFR 35.13(b), to work as an authorized user under the license;
  - c. Change Radiation Safety Officers;
  - d. Order byproduct material in excess of the amount, or radionuclide, or form different than authorized on the license;
  - e. Add or change the areas of use or address or addresses of use identified in the license application or on the license; or
  - f. Change ownership of your organization.
5. Submit a complete renewal application with proper fee or termination request at least 30 days before the expiration date of your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of byproduct material after your license expires is a violation of NRC regulations. A license will not normally be renewed, except on a case-by-case basis, in instances where licensed material has never been possessed or used.

In addition, please note that NRC Form 313 requires the applicant, by his/her signature, to verify that the applicant understands that all statements contained in the application are true and correct to the best of the applicant's knowledge. The signatory for the application should be the licensee or certifying official rather than a consultant.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

## SUBJECT

Deficient Amendment Application (ltr dtd 11/29/96) License No. 21-26196-01, Control No. 302193

## SUMMARY

I called Ms. Clemons regarding the subject application on 3/18/97 at 10:30 a.m. Part of her amendment request was to change the location of the Medical Diagnostic Laboratory. However, her application did not include a map of the proposed new location. She agreed to fax the map today and send the signed letter with the attached facility maps by overnight mail.

Ms. Clemons also agreed that it was appropriate to delete License Conditions No. 13 (depleted uranium for generator shielding) and 15 (compliance with 10 CFR 30.35 (g)). She also agreed to add a new License Condition No. 14 to limit possession to below FAI requirements (30.35 (d)): Standard LC # 163.

Ms. Clemons also said the move to the new facility is scheduled for 4/16/97. I also informed her of the process needed to be authorized to free release the old nuclear medicine department.

## ACTION REQUIRED

Ms. Clemons needs to send a fax of the signed letter with attached facility maps so that the review may continue.

2709 Pontiac Lake Road  
Waterford, MI 48328

SUBJECT: ACKNOWLEDGEMENT OF CORRESPONDENCE  
(Letter Dated 11/29/96)

Dear Licensee:

In response to your request, we have completed the initial processing, which is an administrative review of your application for a(n):

☐ New License                      ☒ Amendment                      ☐ Renewal  
☐ Termination                      ☐ Auth User (Amendment not required)  
☐ Other \_\_\_\_\_

No administrative deficiencies were identified during this initial review. However, it should be noted that a technical review may identify omissions in the submitted information.

It appears that your request is routine (see 1-3 below, as applicable).

1. New and amendment actions are normally processed within 90 days, unless we find major deficiencies, or policy issues requiring central program office assistance.
2. Renewal actions are normally processed within 180 days, however, under timely filing (before expiration), you may continue to operate under your existing license.
3. Termination actions are normally processed within 90 days, unless confirmatory surveys following decontamination/decommissioning activities are involved.

A copy of your correspondence has been forwarded to our Licensing Fee and Debt Collection Branch (301/415-6097) for approval of the fee category and amount, if required.

If you have a compelling safety or business-related reason for requesting expedited review, please contact the Materials Licensing Branch at (630) 829-9887. We will try to complete your request as soon as practicable. Any correspondence about this request should reference the control number.
