Docket No. 50-29

Yankee Atomic Electric Company
ATTN: Mr. L. H. Heider
Vice President of Operations
1671 Worcester Road
Framingham, Massachusetts 01701

Gentlemen:

SUBJECT: EXAMINATION REPORT NO. 50-29/85-22(OL)

This transmits the Examination Report of Operator Licensing Examinations conducted by USNRC Region I at the Yankee Atomic Electric Company the week of October 29, 1985. At the exit interview held on October 31, 1985, the preliminary results of these examinations were discussed.

The results of the written examination indicate that the candidates, in general, did not demonstrate the required comprehensive level of knowledge in most subject areas examined. We acknowledge that the written examination was broader and more detailed than previously given at Yankee Rowe. However, since these kinds of results are usually indicative of short comings in a licensee's training program, I strongly encourage a meeting in the near future to discuss this matter.

My staff will be contacting you shortly to arrange an appropriate meeting date.

Sincerely,

Original Signed By:

Richard W. Starostecki, Director
Division of Reactor Projects
