Mr. James Zimmerman
Assistant Director
Export/Import & International Safeguards
Office of International Programs
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Request for Amendment: NRC Export License XSNM02183, W. Germany (NUKEM).

Dear Mr. Zimmerman:

GA Technologies Inc. (GA) makes application, pursuant to 10 CFR 110, to amend subject license by extending the expiration date from 31 December 1985 to 31 December 1986.

We had anticipated making a shipment of metal castings by September 1985, but were unable to do so. The cask license application is still under review by NRC. It is necessary that we have a shipping cask acceptable to the United States government and the government of West Germany since these metal castings will be processed in Germany for return to GA. Due to this delay we do not anticipate that we will be able to ship by 31 December 1985; thus the need for an extension of our license.

If you have questions, please contact me at (619) 455-2823.

Very truly yours,

Keith E. Asmussen

Keith E. Asmussen
