Maury Neuweg, Chairman
Conference of Radiation Control
Program Directors, Inc.
71 Fountain Place
Frankfort, Kentucky 40601

Dear Mr. Neuweg:

This is in response to your letter dated October 26, 1984 on the NRC staff proposal to revise 10 CFR Part 35 and associated licensing practices.

We also received a letter from Mr. Mobley representing the Agreement States, which requests an opportunity for an Agreement State representative to address the Commission on the Part 35 proposal. In 1983 we arranged for Mr. Spell, then Chairman of the Agreement State group to address the Commission on an earlier proposal to revise Part 35.

We are following the staff's action on the Part 35 revision and will coordinate with Mr. Joe Ward, this year's Agreement State group Chairman, regarding an Agreement State representative addressing the Commission on this issue. I do want to assure you, however, that a summary of the States' views will be contained in any proposal submitted to the Commission for decision. The Agreement States have informed us that they are developing an alternative proposal. We will be happy to review any such proposal when it arrives.

Sincerely,

Original Signed By

G. Wayne Kerr, Director
Office of State Programs
