Dear Mr. Nussbaumer:

We are in receipt of your latest revision of the proposed 10 CFR 35. This revision does not appear to substantially change our previous comments on this subject. We are also in receipt of a copy of a letter dated February 14, 1985 to Chairman Palladino from Aubrey V. Godwin of Alabama. We believe that this letter adequately restates our concerns and provides insight into several changes which should be made for technical and editorial accuracy and consistency of the document.

We, as always, appreciate the opportunity to comment on these areas of mutual concern.

Sincerely,

Michael H. Mobley

Dear Mr. Godwin:

The Radiation Protection Bureau, State of New Mexico commented on 10 CFR 35 proposed changes on March 23, 1984 in a letter addressed to Mr. Donald A. Numbaumer and essentially echoed your position on the proposed revision. I am attaching a copy of that letter for your use and am forwarding a copy of that letter to the Agreement States Program and the CRCPD again, since our positions on NRC's proposed revisions have not changed.

Please call on me for support on this issue or if our position is not clear or can be improved upon.

Sincerely,

Benito J. Garcia  
Program Manager
