RE: NOTICE OF VIOLATION
INSPECTION REPORT #99990001/85-18

Dear Mr. Kinneman:

This letter is being sent in response to your letter sent to us on September 30, 1985 concerning the violation at our site made after an inspection by your office.

Be advised we have proceeded to requisition the testing of these units (see attached).

This will be accomplished as soon as our purchasing agent follows thru with the requisition and procures the personnel needed to do the testing.

At this point we plan on having this testing done in the prescribed time limit.

Sincerely Yours,

A handwritten signature in dark ink that reads "Thomas R. O'Neill".

Thomas R. O'Neill
Chief Sewage Plant Operator
