

NOTICE OF VIOLATION

Perry Memorial Hospital

License No. 12-15671-01

As a result of the inspection conducted on November 20, 1985, and in accordance with the "General Policy and Procedures for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1985), the following violation was identified:

10 CFR 35.14(b)(1)(i) requires for Groups I, II, IV, and V no licensee to receive, possess or use byproduct material except as a radiopharmaceutical manufactured in the form to be administered to the patient, labeled, packaged and distributed in accordance with a specific license issued pursuant to 32.72 of this chapter.

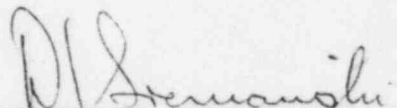

Contrary to this requirement, your facility has received byproduct material for human use on several occasions from facilities not specifically licensed pursuant to 32.72. For example, you received and used Groups II material from Kewanee Public Hospital on September 5, 1985 and from Mendota Community Hospital on March 18, 1985.

This is a severity level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, you are required to submit to this office within thirty days of the date of this Notice a written statement or explanation in reply, including for each violation: (1) corrective action taken and the results achieved; (2) corrective action to be taken to avoid further violations; and (3) the date when full compliance will be achieved. Consideration may be given to extending your response time for good cause shown.

Dated

12/2/85
