Gentlemen:

Pursuant to our discussion of January 22, 1986, our staff has initiated an amendment to Source Material License SUA-1403. The amendment clarifies at what point in time certain monitoring and reporting requirements will become effective. For information purposes, a copy of our staff memorandum supporting this licensing action is enclosed with this correspondence.

Therefore, pursuant to Title 10, Code of Federal Regulations, Part 40, and in accordance with our discussion of January 22, 1986, Source Material License SUA-1403 is amended by deleting License Condition No. 36 and revising License Condition Nos. 19 and 26 to read as follows:

19. Six (6) months prior to commencing of mining operations and annually thereafter. The licensee shall conduct an annual survey of land use (private residences, grazing area, private and public potable water and agricultural wells, and nonresidential structures and uses) in the area within five (5) miles of any portion of the restricted area boundary and submit a report of this survey to the USNRC, Uranium Recovery Field Office. This report shall indicate any differences in land use from that described in the last report.
26. The licensee shall, beginning one (1) year prior to facility construction, conduct an environmental radiological monitoring

program as specified in Table 4.7 of NUREG-0925. This program shall also include sampling and analysis of Little Sand Creek water quality, quarterly or when surface water is running as described in Section 4.4.1.1 and Table 3.19 of NUREG-0925. The results of the monitoring program shall be reported semiannually to the USNRC, Uranium Recovery Field Office, in accordance with the requirements of 10 CFR 40.65.

All other conditions of this license shall remain the same. The license is being reissued in its entirety to incorporate the license conditions specified above.
