Mr. Georgio Gnugnoli
U. S. Nuclear Regulatory Commission
7915 Eastern Avenue
Silver Springs, Maryland 20910

Dear Mr. Gnugnoli:

I have redrafted the "Radiological Site Characterization and Radon Barrier Design" portion of DOE's UMTRA Technical Approach document. I believe all of your comments have been addressed. In addition, at the request of the UMTRA Project Office, I added a section on radon monitoring.

Berg Keshian has not had the opportunity to redraft the long-term moisture section. He anticipates a redraft toward the end of the month, based upon your comments and information from a meeting held with the EPA on that subject.

We should be prepared to review these two drafts for final approval shortly after we receive Berg's revision.

Sincerely,
JACOBS ENGINEERING GROUP, INC.

Kenneth R. Baker
