Attn: Mr. J. Philip Stohr, Director  
Division of Radiation Safety & Safeguard

Sub: Report No. 09-11579-03185-01 dtd Oct. 23, 1985

Ref: NRC License No. 09-11579-03

Mr. Stohr:

The following response and attachments as enclosures are answers and corrective action per the NRC Survey on Oct. 2, 1985 at the Orlando facility of Q C Laboratories, Inc.

The reference (Paragraph) numbers of this correspondence refer to the exact number as listed in your correspondence.

1. Audit survey will be conducted on a quarterly basis. I was in error thinking they were annual audit requirements.
2. Surveys on incoming shipments were performed, but not recorded. They will be recorded on all future incoming shipments.
3. Quality Assurance Program under NRC approval Number 0429 with expiration date May 31, 1986. When the question was asked it was not clearly understood. (copy attached)
4. I do not understand what this alledged violation is about. The only packages we use are those already submitted by Tech/ops and Gamma Industries and approved by NRC. Does this relate back to Point Number 3?

Hopefully this will satisfy the violation requirements. If the requirements of Number 4 are not met please let me know what is the intent of the violation statement.

Sincerely,

Q C LABORATORIES, INC.

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

SEP 06 1983

To: Holders of Quality Assurance  
Program Approval for Radioactive  
Material Packages

Gentlemen:

On August 5, 1983, the U.S. Nuclear Regulatory Commission published a final rule in the Federal Register for the packaging and transportation of radioactive material (10 CFR Part 71). Corrections to the final rule were published in the Federal Register on August 24, 1983. The revised regulations will be effective on September 6, 1983.

Enclosed is your Quality Assurance Program Approval which has been revised to reflect changes made in 10 CFR Part 71. On September 6, 1983, this Quality Assurance Program Approval will supersede your current Quality Assurance Program Approval in its entirety.

Please note the conditions included in the approval.

Sincerely,

*Charles E. MacDonald*  
Charles E. MacDonald, Chief  
Transportation Certification Branch  
Division of Fuel Cycle and  
Material Safety, NMSS

QUALITY ASSURANCE PROGRAM APPROVAL  
FOR RADIOACTIVE MATERIAL PACKAGES

0429

REVISION NUMBER

1

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and Title 10, Code of Federal Regulations, Chapter 1, Part 71, and in reliance on statements and representations heretofore made in Item 5 by the person named in Item 2, the Quality Assurance Program identified in Item 5 is hereby approved. This approval is issued to satisfy the requirements of Section 71.101 of 10 CFR Part 71. This approval is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

2. NAME QC Laboratories, Inc.			3. EXPIRATION DATE May 31, 1986	
STREET ADDRESS 2870 Stirling Road			4. DOCKET NUMBER 71-0429	
CITY Hollywood	STATE FL	ZIP CODE 33020		
5. QUALITY ASSURANCE PROGRAM APPLICATION DATE(S) March 27, 1981				
6. CONDITIONS				

Activities authorized by this approval: procurement, maintenance, repair, and use to be executed with regard to transportation packages in special form. All other shipping activities (i.e., design, fabrication, assembly, testing, and modification) shall be satisfied by obtaining certifications from package suppliers that these activities were conducted in accordance with an NRC-approved QA program. It shall remain the responsibility of the licensee-user that all transportation activities meet the requirements of 10 CFR §71.101.
