## EXETER TOWNSHIP

Board of Supervisors

November 1, 1985

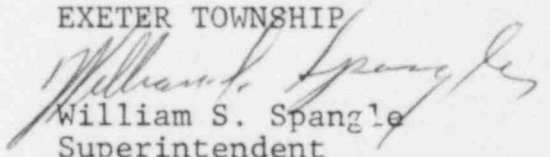

John D. Kinneman  
Nuclear Materials Safety Section A  
Division of Radiation Safety  
631 Park Avenue  
King of Prussia, Pennsylvania 19406

Dear Mr. Kinneman:

In regards to your request for a report on our level IV violation of the Nuclear Regulatory Commission practices, the wipe test that is to be taken every three years was overlooked due to a change in command at the Exeter Treatment Plant, however it was taken on 9-17-85 and the source proved to be OK (activity less than 0.005 NCI). The next test will be taken on schedule, 9-17-88.

Yours sincerely,

EXETER TOWNSHIP

  
William S. Spangle  
Superintendent  
Wastewater Treatment System
