SUBJECT: FORT ST. VRAIN (FSV) TECHNICAL SPECIFICATION UPGRADE PROGRAM SCHEDULE

Dear Mr. Lee:

Enclosed is our proposed schedule for completion of the Technical Specification Upgrade Program in accordance with commitments outlined in your letter dated July 11, 1985 and our letters dated December 20, 1984 and July 19, 1985. We request that you provide your comments on this schedule within 30 days of your receipt of this letter.

The information requested in this letter affects fewer than 10 respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

Edward J. Butcher, Acting Chief
Operating Reactors Branch No. 3
Division of Licensing

FSV Technical Specification Upgrade Schedule

- April 1, 1985 - Licensee submittal of the upgraded FSV Technical Specification 1st draft.
- May 21, 1985 - NRC reviewers review and mark up 1st draft (sent to licensee).
- July 22-26, 1985 - Site visit by NRC reviewers to resolve noted differences (developed list of utility and NRC action items).
- September 1, 1985 - Resolution of NRC action items from site meeting
- September 15, 1985¹ - Licensee submittal of redrafted LCOs on helium circulators, steam generators, and PCRV liner cooling due to the extensive nature of the required revision.
- o November 30, 1985 Licensee to submit the final draft of the upgraded Technical Specifications for NRC review. To include resolution of PSC action items.
- o January 30, 1986 - Final draft reviewed by NRC and forward mark up to the licensee (45 days).
- o February 11-15, 1986 - Site visit by TSRG reviewer to resolve noted differences and develop list of utility and NRC action items (5 days).
- o March 15, 1986 - TSRG review to resolve all NRC and licensee action items from site visit and any new differences and proposed changes (30 days).
- o April 30, 1986 - Licensee to submit application to amend the Specifications (90 days from receipt of NRC final draft comments).
- o May 30, 1986 - NRC issue license amendment approving FSV Technical Specification Upgrade (30 days).
- o FSV 4th Refueling January 1, 1987 - PSC implementation of the upgraded Technical Specification (contingent on NRC approval at least 6 months prior to the refueling start date).
