Section B - Supplies or Services and Prices/Costs

B.1 Brief Description of Work Entitled "Licensing Assistance in Geotechnical and Hydrological Evaluations"

Technical assistance in the review of proposed tailings retention system and evaporation pond designs for conformance to current NRC geotechnical and hydrologic criteria, and the preparation of Safety Evaluation Reports. Evaluation of long-term stability and isolation provided by proposed final tailings disposal and reclamation plans, including the evaluation of available engineering, design, operation and siting alternatives.

B.2 The cost ceiling for this contract is \$241,773.00.

B.3 Remittance Address

If item 15c. of the Standard Form 33 has been checked, the offeror shall enter the remittance address below.

Name: Not Applicable

Address: _____

Section C - Description/Specifications/Work StatementC.1 Statement of WorkC.1.1 Background

The milling of uranium ores results in the production of large volumes of liquid and solid wastes (tailings). These tailings are usually stored behind man-made retaining structures. Uranium mill tailings contain concentrations of radioactive materials in excess of the allowable discharge limits. Therefore, it is necessary to confine those tailings to control their release to the environment. As part of the uranium mill licensing process, the Nuclear Regulatory Commission (NRC) reviews the design and construction details associated with the tailings retention system to assure that they result in a safe impoundment. To assist the applicant in meeting NRC design requirements, the NRC has made available Regulatory Guide 3.11 entitled "Design, Construction and Inspection of Embankment Retention Systems for Uranium Mills." This guide elaborates on NRC philosophy concerning embankment design and is the basis for NRC review of submitted designs.

In addition, hydrologic engineering aspects of proposed tailings management systems for both the operational and reclamation phases must be reviewed to assure that flood flows resulting from the occurrence of probable maximum precipitation events will not result in the erosion of tailings and that adequate freeboard capacity is maintained during the operational period. To assist the applicant in meeting NRC design requirements, the NRC has made available Staff Technical Position WM-8201 entitled "Hydrologic Design Criteria for Tailings Retention Systems." This document provides guidance regarding NRC review of hydrological aspects of tailings management systems. Additional guidance is provided in hydro-meteorological reports prepared by the National Oceanic and Atmospheric Administration (NOAA).

C.1.2 Contract Objectives

On a task order basis, the contractor shall perform geotechnical and hydrological evaluations of applicant submittals which pertain to the tailings management systems for existing or proposed uranium milling projects. Although the number of task orders to be issued to the contractor will depend upon the number of applications received, the NRC estimates that up to six (6) tasks per year for each of the two years of this contract may be issued. It is estimated that the period of performance for each task shall be no longer than 6 months and that two or more tasks may be issued simultaneously if so required by the NRC.

C.1.3 Scope of Work

This is a task order contract under which all task orders will be issued at the sole option of the NRC Contracting Officer.

The contractor shall provide all the necessary personnel, materials, transportation, and facilities as may be required to perform tasks as specified in individual task orders issued relating to any or all of the following two tasks. The completion schedule specified in each task order must be strictly adhered to.

a. Task 1 - Evaluations

The contractor shall review all applicant submittals which pertain to the embankment design to determine compliance with Regulatory Guide 3.11 or Staff Technical Position WM-8201. The review shall include, but not be limited to, the following:

- a) Detailed assessment of site conditions including climate, hydrology, geology, and seismology to evaluate their impact on the proposed tailings retention system.

- b) Evaluation of detailed data concerning foundation and embankment materials' physical and mechanical properties such as classification, shear strength consolidation, permeability, compaction, piping and cracking susceptibility, and wind-water erosion characteristics, to assess the adequacy of the impoundment design.
- c) Evaluation of the applicant's assessments of settlement, seepage, and flood storage capacity.
- d) Review of the static, pseudo-static, and/or dynamic embankment stability analyses prepared by the applicant to ensure that the requirements of Regulatory Guide 3.11 are met.
- e) Evaluation of flood control features of the tailings management plan, during both operation and reclamation phases, to assure compliance with Technical Position WM-8201 and the appropriate NOAA reports.
- f) Evaluation of the long-term stability of proposed reclamation plans, including assessments of the potential for and/or expected magnitude of sheet and gully erosion.

Immediately upon issuance of a task order, the NRC Project Officer shall furnish the contractor with the applicant's submittals as supplied to the NRC by the applicant. The contractor shall review the applicant's submittals and shall identify any requirements for additional information. Any requests by the contractor for additional information shall be obtained from the applicant by the NRC Project Officer only. The contractor shall provide the Project Officer with a written list of required information for each project, and the Project Officer shall transmit the list to the applicant. Should the need for a second-round of questions arise, i.e., the contractor makes a second request for additional information, the same procedure as described above shall be followed.

Generally, these events shall take place within thirty (30) day intervals, i.e., the contractor will make the initial request for additional information within thirty (30) days of receipt of the applicant's submittals from the Project Officer. The Project Officer will supply the applicant's response to the contractor within thirty (30) days of receipt of the request for additional information. The contractor shall make a second request for additional information, if necessary, within thirty (30) days of receipt of the applicant's response to the initial request from the Project Officer. The Project

Officer will supply the contractor with the applicant's response to the second request for additional information within thirty (30) days of receipt of the contractor's request for the same. Under certain circumstances, longer or shorter time frames (than the thirty (30) day intervals specified) may be necessary for individual projects and the time frame for contractor review will be adjusted appropriately.

b. Task 2 - Hearing Participation

Should the licensing process for any of the projects reviewed require hearings, the contractor shall be called upon to defend the geotechnical and/or hydrological conclusions stated in the Safety Evaluation Report.

C.2 Meetings and Travel

The NRC estimates that two contract personnel will be required to travel for any task order issued. Each task order will specify any required travel for performance of work detailed in the task order.

Prior to any of the trips taken during the period of performance under each task order, the contractor shall obtain verbal or written approval of the NRC Project Officer. Any other trips by the contractor shall be approved by the NRC Contracting Officer via a modification to the task order.

C.3 NRC Furnished Materials

The NRC Project Officer shall provide all Federal Regulations, technical position papers, and Regulatory Guides within 7 days of issuance of a task order on the same. The NRC Project Officer shall provide license applications, environmental impact statements, topical reports, technical assistance or research reports, and other appropriate information within 10 days of issuance of a task order on the same.

Section D - Packaging and Marking

D.1 Packaging and Marking

The Contractor shall use standard commercial packaging for all items to be delivered. On the front of the package, the Contractor shall clearly identify the contract number under which the product is being provided.

Section E - Inspection and Acceptance

E.1 FAR Citations

The contractor shall refer to Section I, Clause No. 52-252-2 for citations incorporated by reference.

Section F - Deliveries and Performance

F.1 Reports, Documentation and Other Deliverable End Items

The reports listed below are to be prepared in accordance with NRC Manual Chapter 3202 (Attachment 3).

F.1.1 Monthly Progress Reports

No monthly progress reports will be required for any task order with a period of performance less than 90 days.

For any task order with a period of performance in excess of 90 days, the contractor shall submit 5 copies of a monthly progress report to the NRC Project Officer and 1 copy to the NRC Contracting Officer no later than the 15th day after the first month of execution of the task order, for every month within the period of performance of the task order.

If two or more task orders have been issued simultaneously, the contractor may submit one monthly progress report for all task orders, but shall break the report down by each task order.

The monthly progress report shall include, as a minimum, the following information:

- 1) the work performed during the previous month;
- 2) personnel time and expenditures by labor category during the previous month;
- 3) costs and uncoded obligations, listed separately, during the previous month and cumulative to date;
- 4) activities in progress or completed;
- 5) key milestones achieved;
- 6) anticipated problem areas and their effects on other activities and the project schedule;
- 7) meetings held or attended; and
- 8) project-related travel.

F.1.2 Safety Evaluation Report

The contractor shall submit 6 copies of a final Safety Evaluation Report (SER) to the NRC Project Officer and 1 copy to the NRC Contracting Officer upon completion of each task order (for Task 1 within Section C of this contract). The report shall include, as a minimum, a review summary of the

evaluation performed for the task which addresses all of the following subjects:

a) Hydrological

freeboard requirements;

erosion potential of downstream dam toes, erosion potential for the tops and sidelopes of reclaimed piles; and

diversion ditch design during operation and reclamation phases, if applicable.

b) Geotechnical

See Attachment No. 6 to this contract for list.

Upon completion of the technical work of each task and 30 days before completion of the task, the contractor shall submit one draft copy of the SER to the NRC Project Officer for review/comments. Within 14 days after receipt of the draft SER, the NRC Project Officer shall provide any written/verbal comments on the draft SER to the contractor. Upon receipt of the comments by the NRC Project Officer, the contractor shall submit the final copies of the SER as indicated above on or before the expiration date of the task order.

F.1.3 Site Visits

With 21 days following a site visit, the contractor shall submit one copy of the trip report to the Project Officer and one copy to the NRC Contracting Officer which describes the problems investigated, characterizes the nature and extent of the investigation, defines the methods used, and states conclusions and recommendations about the results of the investigation.

F.2 Quality Assurance Procedures

For all draft final and final task reports delivered under this contract, the contractor shall assure that an independent review and verification of all numerical computations and mathematical equations and derivations developed for the reports are performed by qualified personnel other than the original author(s) of the reports. If the contractor proposes to verify or check less than 100 percent of all computations and mathematical equations and derivations in the report(s), as might be the case when there are a large number of routine, repetitive calculations, the contractor must first obtain written approval from the NRC Project Officer. Computer-generated calculations will not require verification where the computer program has already been verified.

In addition, all reports, including those which do not contain numerical analyses, shall have a management review conducted by the contractor's Project Manager prior to submission to the NRC. All reports shall be annotated to indicate that the review and verification has been accomplished prior to their submission to the NRC. (This may be accomplished by use of a cover letter accompanying the report, if preferable.)

F.3 Place of Delivery

The items to be furnished hereunder shall be delivered, with all transportation charges paid by the contractor, to:

1. Copies to Project Officer:

U. S. Nuclear Regulatory Commission
Attn: Pete J. Garcia, Jr.
Uranium Recovery Field Office
PO Box 25325
Denver, CO 80225

2. Copy to Contracting Officer:

U. S. Nuclear Regulatory Commission
Attn: Contracting Officer
Division of Contracts
Mail Stop: AR-2223
Washington, DC 20555

F.4 Duration of Contract Period

This contract shall become effective on either the date of award or the effective date as otherwise specified, and shall continue to completion thereof, within twenty-four (24) months after said contract is effective.

F.5 FAR Citations

The contractor shall refer to Section I, Clause No. 52-252-2 for citations incorporated by reference.

Section G - Contract Administration Data

G.1 Consideration

Consideration for satisfactory performance of each task order requirement shall be incorporated into each such task order. The estimated cost, fixed fee and total cost plus fixed fee shall be set forth in each task order.

G.2

Overhead/General and Administrative Rates

- A. Pending the establishment of final overhead rates which shall be negotiated based on audit of actual costs, the Contractor shall be reimbursed for allowable indirect costs hereunder at the provisional rate of percent of full-time direct labor and percent of part-time direct labor.
- B. Pending the establishment of final general and administrative rates which shall be negotiated based on audit of actual costs, the Contractor shall be reimbursed for allowable indirect costs hereunder at the provisional rate of percent of full-time direct labor and percent of part-time direct labor.
- C. Notwithstanding A. and B. of this Section, said provisional overhead and G&A rates may be adjusted as appropriate during the term of the contract upon the acceptance of such revised rates by the Contracting Officer.
- D. The rates specified in A. and B. above shall apply to all task orders issued under this contract.

G.3

Payment of Fixed Fee

Payment of fixed fee shall be in accordance with paragraph (b) of clause 52.216-8 entitled "Fixed Fee" and the NRC billing instructions in Part III, Section J.

G.4

Technical Direction

- A. Performance of the work under this contract shall be subject to the technical direction of the NRC Project Officer named in Section G.5 of this contract. The term "Technical Direction" is defined to include the following:
 - 1. Technical direction to the Contractor which shifts work emphasis between areas of work or tasks, requires pursuit of certain lines of inquiry, fills in details or otherwise serves to accomplish the contractual scope of work.

2. Providing assistance to the Contractor in the preparation of drawings, specifications or technical portions of the work description.
 3. Review and where required by the contract, approval of technical reports, drawings, specifications and technical information to be delivered by the Contractor to the Government under the contract.
- B. Technical direction must be within the general scope of work stated in the contract. The Project Officer does not have the authority to and may not issue any technical direction which:
1. Constitutes an assignment of additional work outside the general scope of the contract.
 2. Constitutes a change as defined in the clause of the General Provisions, entitled "Changes."
 3. In any way causes an increase or decrease in the total estimated contract cost, the fixed fee, if any, or the time required for contract performance.
 4. Changes any of the expressed terms, conditions or specifications of the contract.
- C. ALL TECHNICAL DIRECTIONS SHALL BE ISSUED IN WRITING BY THE PROJECT OFFICER OR SHALL BE CONFIRMED BY SUCH PERSON IN WRITING WITHIN TEN (10) WORKING DAYS AFTER VERBAL ISSUANCE. A copy of said written direction shall be submitted to the Contracting Officer.

The Contractor shall proceed promptly with the performance of technical directions duly issued by the Project Officer in the manner prescribed by this article and within such person's authority under the provisions of this article.

If, in the opinion of the Contractor, any instruction or direction issued by the Project Officer is within one of the categories as defined in B(1) through (4) above, the Contractor shall not proceed but shall notify the Contracting Officer in writing within five (5) working days after the receipt of any such instruction or direction and shall request the Contracting Officer to modify the contract accordingly. Upon receiving such notification from the Contractor, the Contracting Officer shall issue an appropriate contract modification or advise the Contractor in writing that, in the Contracting Officer's opinion, the technical direction is within the scope of this article and does not constitute a change under the Changes Clause.

- D. Any unauthorized commitment or direction issued by the Project Officer may result in an unnecessary delay in the Contractor's performance, and may even result in the Contractor expending funds for unallowable costs under the contract.
- E. A failure of the parties to agree upon the nature of the instruction or direction or upon the contract action to be taken with respect thereto shall be subject to the provisions of the contract clause entitled "Disputes."

G.5 Project Officer

- A. The individual(s) listed in "B" below is (are) hereby designated as the Contracting Officer's authorized representative (hereinafter called Project Officer) for technical aspects of this contract. The Project Officer is not authorized to approve or request any action which results in or could result in an increase in contract cost; or terminate, settle any claim or dispute arising under the contract, or issue any unilateral directive whatever.

The Project Officer is responsible for: (1) monitoring the Contractor's technical progress, including surveillance and assessment of performance, and recommending to the Contracting Officer changes in requirements; (2) interpreting the scope of work; (3) performing technical evaluation as required; (4) performing technical inspections and acceptances required by this contract; and (5) assisting the Contractor in the resolution of technical problems encountered during performance. Within the purview of this authority, the Project Officer is authorized to review all costs requested for reimbursement by Contractors and submit recommendations for approval, disapproval, or suspension for supplies/services required under the contract. The Contracting Officer is responsible for directing or negotiating any changes in terms, conditions, or amounts cited in the contract.

For guidance from the Project Officer to the Contractor to be valid, it must: (1) be consistent with the description of work set forth in the contract; (2) not constitute new assignment of work or change to the expressed terms, conditions or specifications incorporated into this contract; (3) not constitute a basis for an extension to the period of performance or contract delivery schedule; and, as stated above, (4) not constitute a basis for any increase in the contract cost.

B. Name and Address: US Nuclear Regulatory Commission
Attn: Pete J. Garcia, Jr.
Uranium Recovery Field Office
PO Box 25325
Denver, CO 80225

Telephone Number: (303) 776-2820

G.6 Travel Reimbursement

The Contractor will be reimbursed for the following reasonable domestic travel costs incurred directly and specifically in the performance of this contract and accepted by the Contracting Officer:

1. Per diem shall be reimbursed at a daily rate not to exceed \$50.00. The per diem amount is comprised of lodging expense plus \$23.00 for meals and miscellaneous expense, the total of which shall not exceed the daily rate.
2. When travel is to one of the high-rate geographical areas as detailed in the current Federal Travel Regulations, actual subsistence costs shall be reimbursed in accordance with the current Federal Travel Regulations.
3. The cost of travel by privately owned automobile shall be reimbursed at the rate of 20.5¢ per mile.
4. The cost of travel by rented automobile shall be reimbursed on a reasonable actual expense basis.
5. All common carrier travel reimbursable hereunder shall be via economy class rates when available. If not available, reimbursement vouchers will be annotated that economy class accommodations were not available. First-class air travel is not authorized.
6. Receipts are required for common carrier transportation, lodging and miscellaneous items in excess of \$25.00.

G.7 Payment Due Date

- (a) Payments under this contract will be due 30 calendar days after the later of:
 - (1) The date of actual receipt of a proper invoice (original and 4 copies) to:

U.S. Nuclear Regulatory Commission
Division of Accounting and Finance
Office of Resource Management
ATTN: GOV/COM Accounts Section
Washington, D.C. 20555

or

- (2) The date the final deliverable product/service is accepted by the Government.
- (b) For the purpose of determining the due date for payment and for no other purpose, acceptance will be deemed to occur 30 calendar days after the date of delivery of the final deliverable product/service performed in accordance with the terms of the contract.
- (c) If the final product/service is rejected for failure to conform to the technical requirements of the contract, the provisions in paragraph (b) of this clause will apply to the new delivery of the final product/service.
- (d) The date of payment by wire transfer through the Treasury Financial Communications System shall be considered the date payment is made for individual payments exceeding \$25,000. The date a check is issued shall be considered the date payment is made for individual payments of \$25,000 or less.

G.8

Invoice Requirements

Invoices shall be submitted in an original and 4 copies to:

U.S. Nuclear Regulatory Commission
Division of Accounting and Finance
Office of Resource Management
ATTN: GOV/COM Accounts Section
Washington, D.C. 20555.

To constitute a proper invoice, the invoice must include the following information and/or attached documentation:

- (1) Name of the business concern and invoice date.
- (2) Contract number or other authorization for delivery of property or services.
- (3) Description price and quantity of property and services actually delivered or rendered.
- (4) Shipping and payment terms.
- (5) Name (where practicable), title, phone number, and complete mailing address of responsible official to whom payment is to be sent.
- (6) Other substantiating documentation or information as required by the contract.

G.9 Interest on Overdue Payments

- (a) The Prompt Payment Act, Public Law 97-177 (96 STAT. 85, 31 USC 1801) is applicable to payment of the expiration invoice under this contract and requires the payment of interest to Contractors on overdue payments of the expiration invoice or improperly taken discounts.
- (b) Determinations of interest due will be made in accordance with the provisions of the Prompt Payment Act and Office of Management and Budget Circular A-125, Vol. 47 Federal Register 37321, August 25, 1982. Among other considerations, OMB Circular A-125 provides that:
 - (1) Interest penalties are not required when payment is delayed because of a disagreement over the amount of payment or other issues concerning compliance with the terms of the contract.
 - (2) Whenever a proper invoice is paid after the due date plus 15 days, interest will be included with the payment at the interest rate applicable on the payment date. Interest will be computed from the day after the due date through the payment date.
- (c) For purposes of this clause, an expiration invoice is defined as a claim submitted for costs incurred for performance through the expiration date of a Cost Type contract.

G.10 Task Order Procedures

Task orders for services under this contract shall be issued at the sole option of the NRC, and it is understood that NRC undertakes no obligation to issue Task Orders hereunder. Additionally, NRC reserves the right to withdraw a proposed task order at any time prior to its formal award. Only Contracting Officers of the U. S. Nuclear Regulatory Commission may authorize the initiation of work under this contract. The provisions of this contract shall govern all task orders issued hereunder.

Request for Proposal

For each task order issued, the NRC Contracting Officer will transmit to the contractor a written letter Task Order Request for Proposal. That Task Order Request for Proposal will specify all pertinent information regarding the work to be performed including, as a minimum, the following:

1. Scope of Work/Meetings/Travel and Deliverables
2. Reporting Requirements
3. Period of Performance - Place of Performance
4. Applicable Special Provisions
5. Technical Skills Required
6. Estimated Level of Effort

Technical Proposal

By the date specified in the Task Order Request for Proposal, the contractor shall deliver to the NRC Contracting Officer a written technical Task Order Proposal that provides, when applicable, the following:

- (1) A discussion of the scope of work requirements to substantiate the contractor's understanding of the requirements of the task order and his proposed method of approach to meet the objective of the order.
- (2) Resumes for professional personnel proposed to be utilized in the performance of any resulting task order. Include educational background, specific pertinent work experience and a list of any pertinent publications authored by the individual.
- (3) Identification of administrative support personnel and/or facilities that are needed to assist the professional personnel in completing work on the task order.
- (4) Identification of "Key Personnel" and the number of staff hours that will be committed to completion of work on the task order.

Cost Proposal

The contractor shall also submit a cost proposal with each task order technical proposal, utilizing the Standard Form 1411, Contract Pricing Proposal. Each task order cost proposal shall be fully supported by cost and pricing data adequate to establish the reasonableness of the proposed amounts, including:

- (1) Direct labor by categories, quantity of hours and applicable hourly rates and extensions thereof.
- (2) Indirect cost rates, general and administrative, fringe, overhead, and extensions thereof.
- (3) Itemized material costs, when applicable.
- (4) Itemized travel costs, when applicable.
- (5) Contractor's fixed fee, if any; to be negotiated for each task order.
- (6) Total estimated cost.

Task Order Award

Following negotiation of the contractor's task order proposal, the NRC Contracting Officer will issue a formal, definitized task order to include the following:

- (1) Statement of Work, Meetings/Travel, and Deliverables
- (2) Period of Performance
- (3) Reporting Requirements
- (4) Total Estimated Cost Plus Fixed Fee and Obligations
- (5) Special Terms and Conditions, if any
- (6) Key Personnel

Accelerated Procedure

The contractor shall not commence work prior to receipt of a definitized task order signed by the NRC Contracting Officer. However, in some circumstances, it may be necessary for the contractor to commence work before he has submitted his proposal and before a final cost and fee has been agreed upon and a definitized task order is issued. Accordingly, when the NRC Contracting Officer so authorizes, the contractor shall, within twenty-four hours (or as otherwise stated) of receipt of verbal Task Order Request for Proposal, proceed with the work subject to an agreeable limitation (based on telephonic negotiations).

Where the contractor is authorized as indicated above to commence work prior to the definitization of a task order, the NRC Contracting Officer, within thirty (30) days or such additional period as may be mutually agreed upon after receipt of the contractor's proposal, shall either:

- (1) Notify the contractor of the need for further negotiations. When an agreement on cost and fee is reached, the NRC Contracting Officer shall then definitize the task order.
- (2) Definitize the task order, thereby accepting the contractor's proposed price.
- (3) Terminate the task order either in part or in its entirety in accordance with the termination clauses of this contract.

Task Order Ceilings

Each task order will be in accordance with the Limitation of Cost Clause (Section I, 52.232-20).

G.11 Method of Payment

- (a) Payment under this contract will be made by wire transfer through the Treasury Financial Communications System for each individual payment in excess of \$25,000 and by Treasury check for each individual payment of \$25,000 or less.
- (b) Within seven days after the effective date of the contract, the Contractor shall forward the following information in writing to the Contracting Officer to facilitate wire transfer of contract payments. In the event that the Contractor's financial institution has

access to the Federal Reserve Communications System, Contractor shall complete all items except items 7 - 9. In the event the Contractor's financial institution does not have access to the Federal Reserve Communications System, Contractor shall complete all items except item 4.

1. Name and address of organization
 2. Contact person and telephone number
 3. Name and address of financial institution
 4. Financial institutions's 9-digit ABA identifying number for routing transfer of funds
 5. Telegraphic abbreviation of financial institution
 6. Account number at your financial institution your financial institution receives electronic funds transfer messages through, if it does not have access to the Federal Reserve Communications System
 7. Name and address of the correspondent financial institution your financial institution receives electronic funds transfer messages through, if it does not have access to the Federal Reserve Communications System
 8. Correspondent financial institution 9-digit ABA identifying number for routing transfer of funds
 9. Telegraphic abbreviation of correspondent financial institution
 10. Signature and title of person supplying this information
- (c) Any changes to the information furnished under paragraph (b) of this clause shall be furnished to the Contracting Officer in writing. It is the Contractor's responsibility to furnish these changes promptly to avoid payments to erroneous bank accounts.

Section H - Special Contract Requirements

H.1 Key Personnel

- (1) The following individuals are considered to be essential to the successful performance of the work hereunder.

Robert I. Fujimoto, Ronald Vasquez, Gus Center,
Al Zlaten, Richard Moore, Ralph Rabus,
Steven Vick and Dale Waskamp

The Contractor agrees that such personnel shall not be removed from the contract work or replaced without compliance with paragraphs (b) and (c) hereof.

(b) If one or more of the key personnel for whatever reason becomes, or is expected to become, unavailable for work under this contract for a continuous period exceeding 30 work days, or is expected to devote substantially less effort to the work than indicated in the proposal or initially anticipated, the Contractor shall immediately notify the Contracting Officer and shall, subject to the concurrence of the Contracting Officer or his authorized representative, promptly replace such personnel with personnel of at least substantially equal ability and qualifications.

(c) All requests for approval of substitutions hereunder must be in writing and provide a detailed explanation of the circumstances necessitating the proposed substitutions. They must contain a complete resume for the proposed substitute, and other information requested by the Contracting Officer or needed by him to approve or disapprove the proposed substitution. The Contracting Officer or his authorized representative will evaluate such requests and promptly notify the Contractor of his approval or disapproval thereof in writing.

(d) If the Contracting Officer determines that suitable and timely replacement of key personnel who have been reassigned, terminated or have otherwise become unavailable for the contract work is not reasonably forthcoming or that the resultant reduction of productive effort would be so substantial as to impair the successful completion of the contract or the service order, the contract may be terminated by the Contracting Officer for default or for the convenience of the Government, as appropriate, or, at the discretion of the Contracting Officer if he finds the Contractor at fault for the condition, the contract price or fixed fee may be equitably adjusted downward to compensate the Government for any resultant delay, loss or damage.

H.2

Safety, Health, and Fire Protection

The Contractor shall take all reasonable precautions in the performance of the work under this contract to protect the health and safety of employees and of members of the public and to minimize danger from all hazards to life and property and shall comply with all health, safety, and fire protection regulations and requirements (including reporting requirements) of the Commission and the Department of Labor. In the event that the Contractor fails to comply with said regulations or requirements, the Contracting Officer may, without prejudice to any other legal or contractual rights of the Commission, issue an order stopping all or any part of the work; thereafter, a start order for resumption of work may be

issued at the discretion of the Contracting Officer. The Contractor shall make no claim for an extension of time or for compensation or damages by reason of or in connection with such work stoppage.

H.3 Dissemination of Contract Information (OMB Clearance Number 3150-0112)

The Contractor shall not publish, permit to be published, or disseminate to the public any information, oral or written, concerning the work performed under this contract without the prior written consent of the Contracting Officer. Two copies of any information proposed to be published or disseminated shall be submitted to the Contracting Officer. Failure to comply with this clause shall be grounds for termination of this contract.

H.4 Private Use of Contract Information and Data

Except as otherwise specifically authorized by this contract,, or as otherwise approved by the Contracting Officer, information and other data developed or acquired by or furnished the Contractor in the performance of this contract, shall be used only in connection with the work under this contract.

H.5 Drawings, Designs, and Specifications

All drawings, sketches, designs, design data, specifications, notebooks, technical and scientific data, and all photographs, negatives, reports, findings, recommendations, data and memoranda of every description relating thereto, as well as all copies of the foregoing relating to the work or any part thereto, shall be subject to inspection by the Commission at all reasonable times (for which inspection the proper facilities shall be afforded the Commission by the Contractor and its subcontractors), shall be the property of the Government and may be used by the Government for any purpose whatsoever without any claim on the part of the Contractor and its subcontractors and vendors for additional compensation and shall, subject to the right of the Contractor to retain a copy of said material for its own use, be delivered to the Government, or otherwise disposed of by the Contractor either as the Contracting Officer may from time to time direct during the progress of the work or in any event as the Contracting Officer shall direct upon completion or termination of this contract. The Contractor's right of retention and use shall be subject to the security, patent, and use of information provisions, if any, of this contract.

H.6 Proprietary Data and Confidential Information

In connection with the performance of the work under this contract, the Contractor may be furnished, or may develop or

acquire, proprietary data (trade secrets) or confidential or privileged technical, business, or financial information, including Commission plans, policies, reports, financial plans, internal data protected by the Privacy Act of 1974 (P.L. 93-579), or other information which has not been released to the public or has been determined by the Commission to be otherwise exempt from disclosure to the public. Contractor agrees to hold such information in confidence and not to directly or indirectly duplicate, disseminate, or disclose such information in whole or in part to any other person or organization except as may be necessary to perform the work under this contract. Contractor agrees to return such information to the Commission or otherwise dispose of it either as the Contracting Officer may from time to time direct during the progress of the work or in any event as the Contracting Officer shall direct upon completion or termination of this contract. Failure to comply with this clause shall be grounds for termination of this contract.

H.7

Security (OMB Clearance Number 3150-0112)

(a) It is the Contractor's duty to safeguard Restricted Data, Formerly Restricted Data, and other classified information. The Contractor shall, in accordance with the Commission's security regulations and requirements, be responsible for safeguarding Restricted Data, Formerly Restricted Data, and other classified information and protecting against sabotage, espionage, loss and theft, the classified documents and material in the Contractor's possession in connection with the performance of work under this contract. Except as otherwise expressly provided in this contract, the Contractor shall, upon completion or termination of this contract, transmit to the Commission any classified matter in the possession of the Contractor or any person under the Contractor's control in connection with performance of this contract.

If retention by the Contractor of any classified matter is required after the completion or termination of the contract and such retention is approved by the Contracting Officer, the Contractor will complete a certificate of possession to be furnished to the Commission specifying the classified matter to be retained. The certification shall identify the items and types or categories of matter retained, the conditions governing the retention of the matter and their period of retention, if known. If the retention is approved by the Contracting Officer, the security provisions of the contract will continue to be applicable to the matter retained.

(b) Regulations. The Contractor agrees to conform to all security regulations and requirements of the Commission.

(c) Definition of Restricted Data. The term "Restricted Data," as used in this clause, means all data concerning (1) design, manufacture, or utilization of atomic weapons; (2) the

production of special nuclear material; or (3) the use of special nuclear material in the production of energy, but shall not include data declassified or removed from the Restricted Data category pursuant to section 142 of the Atomic Energy Act of 1954, as amended.

(d) Definition of Formerly Restricted Data. The term "Formerly Restricted Data," as used in this clause, means all data removed from the Restricted Data category under section 142-d. of the Atomic Energy Act of 1954, as amended.

(e) Security Clearance Personnel. The Contractor shall not permit any individual to have access to Restricted Data, Formerly Restricted Data, or other classified information, except in accordance with the Atomic Energy Act of 1954, as amended, and the Commission's regulations or requirements applicable to the particular type or category of classified information to which access is required.

(f) Criminal Liabilities. It is understood that disclosure of Restricted Data, Formerly Restricted Data, or other classified information relating to the work or services ordered hereunder to any person not entitled to receive it, or failure to safeguard any Restricted Data, Formerly Restricted Data, or any other classified matter that may come to the Contractor or any person under the Contractor's control in connection with work under this contract, may subject the Contractor, its agents, employees, or subcontractors to criminal liability under the laws of the United States. (See the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2011 et seq.; 18 U.S.C. 793 and 794; and Executive Order 11652.)

(g) Subcontracts and Purchase Orders. Except as otherwise authorized in writing by the Contracting Officer, the Contractor shall insert provisions similar to the foregoing in all subcontracts and purchase orders under this contract.

(h) In performing the contract work, the Contractor shall assign classifications to all documents, material, and equipment originated or generated by the Contractor in accordance with classification guidance by the Commission. Every subcontract and purchase order issued hereunder involving the origination or generation of classified documents, material, or equipment shall provide that the subcontractor or supplier shall assign classifications to all such documents, material, and equipment in accordance with classification guidance furnished by the Contractor.

H.8

Contractor Organizational Conflicts of Interest (OMB Clearance Number 3150-0112)

(a) Purpose. The primary purpose of this clause is to aid in ensuring that the Contractor: (1) Is not placed on a conflicting role because of current or planned interest

(financial, contractual, organizational, or otherwise) which relate to the work under this contract, and (2) does not obtain an unfair competitive advantage over other parties by virtue of its performance of this contract.

(b) Scope. The restrictions described herein shall apply to performance or participation by the Contractor as defined in 41 CFR §20-1.5402(f) in the activities covered by this clause.

(c) Work for Others. Notwithstanding any other provision of this contract, during the term of this contract, the Contractor agrees to forgo entering into consulting or other contractual arrangements with any firm or organization, the result of which may give rise to a conflict of interest with respect to the work being performed under this contract. The Contractor shall ensure that all employees who are employed full time under this contract and employees designated as key personnel, if any, under this contract abide by the provision of this clause. If the Contractor believes with respect to itself or any such employee that any proposed consultant or other contractual arrangement with any firm or organization may involve a potential conflict of interest, the Contractor shall obtain the written approval of the Contracting Officer prior to execution of such contractual arrangement.

(d) Disclosure after award.

(1) The Contractor warrants that to the best of its knowledge and belief and except as otherwise set forth in this contract, it does not have any organizational conflicts of interest, as defined in 41 CFR 20-1.5402(a).

(2) The Contractor agrees that if after award it discovers organizational conflicts of interest with respect to this contract, it shall make an immediate and full disclosure in writing to the Contracting Officer. This statement shall include a description of the action which the Contractor has taken or proposes to take to avoid or mitigate such conflicts. The NRC may, however, terminate the contract for convenience if it deems such termination to be in the best interests of the Government.

(e) Access to and use of information.

(1) If the Contractor in the performance of this contract obtains access to information, such as NRC plans, policies, reports, studies, financial plans, internal data protected by the Privacy Act of 1974 (Pub. L. 93-579), or data which has not been released to the public, the Contractor agrees not to:

- (i) Use such information for any private purpose until the information has been released to the public;
 - (ii) compete for work for the Commission based on such information for a period of six (6) months after either the completion of this contract or the release of such information to the public, whichever is first;
 - (iii) submit an unsolicited proposal to the Government based on such information until one year after the release of such information to the public, or
 - (iv) release the information without prior written approval by the Contracting Officer unless such information has previously been released to the public by the NRC.
- (2) In addition, the Contractor agrees that to the extent it receives or is given access to proprietary data, data protected by the Privacy Act of 1974 (Pub. L. 93-579), or other confidential or privileged technical, business, or financial information under this contract, the Contractor shall treat such information in accordance with restrictions placed on use of the information.
- (3) The Contractor shall have, subject to patent and security provisions of this contract, the right to use technical data it produces under this contract for private purposes provided that all requirements of this contract have been met.
- (f) Subcontracts. Except as provided in 41 CFR 20-1.5402(h), the Contractor shall include this clause, including this paragraph, in subcontracts of any tier. The terms "contract," "Contractor," and "Contracting Officer," shall be appropriately modified to preserve the Government's rights.
- (g) Remedies. For breach of any of the above prescriptions or for intentional nondisclosure or misrepresentation of any relevant interest required to be disclosed concerning this contract or for such erroneous representations as necessarily imply bad faith, the Government may terminate the contract for default, disqualify the Contractor from subsequent contractual efforts, and pursue other remedies as may be permitted by law or this contract.
- (h) Waiver. A request for waiver under this clause shall be directed in writing through the Contracting Officer to the

Executive Director for Operations (EDO) in accordance with the procedures outlined in §20-1.5411.

PART II - CONTRACT CLAUSES

Section I - Contract Clauses

52.219-11 SPECIAL 8(a) CONTRACT CONDITIONS. (APR 1984)

The Small Business Administration (SBA) agrees to the following:

(a) To furnish the supplies or services set forth in this contract according to the specifications and the terms and conditions hereof by subcontracting with an eligible concern pursuant to the provisions of section 8(a) of the Small Business Act, as amended (15 U.S.C. 637(a)).

(b) That in the event SBA does not award a subcontract for all or a part of the work hereunder, this contract may be terminated either in whole or in part without cost to either party.

(c) Delegates to the U.S. Nuclear Regulatory Commission the responsibility for administering the subcontract to be awarded hereunder with complete authority to take any action on behalf of the Government under the terms and conditions of the subcontract; provided, however, that the U. S. Nuclear Regulatory Commission shall give advance notice to the SBA before it issues a final notice terminating the right of a subcontractor to proceed with further performance, either in whole or in part, under the subcontract for default or for the convenience of the Government.

(d) That payments to be made under any subcontract awarded under this contract will be made directly to the subcontractor by the U.S. Nuclear Regulatory Commission.

(e) That the subcontractor awarded a subcontract hereunder shall have the right of appeal from decisions of the Contracting Officer cognizable under the "Disputes" clause of said subcontract.

(End of clause)

(AV FPR 1-1.713-3(d)(1))

52.219-12 SPECIAL 8(a) SUBCONTRACT CONDITIONS. (APR 1984)

(a) The Small Business Administration (SBA) has entered into Contract No. NRC-31-85-337 with the U.S. Nuclear Regulatory Commission to furnish the supplies or services as described therein. A copy of the contract is attached hereto and made a part hereof.

(b) Goodson and Associates, hereafter referred to as the subcontractor, agrees and acknowledges as follows:

(1) That it will, for and on behalf of the SBA, fulfill and perform all of the requirements of Contract No. for the consideration stated therein and that it has read and is familiar with each and every part of the contract.

(2) That the SBA has delegated responsibility for the administration of this subcontract to the U.S. Nuclear Regulatory Commission with complete authority to take any action on behalf of the Government under the terms and conditions of this subcontract.

(3) That it will not subcontract the performance of any of the requirements of this subcontract to any lower tier subcontractor without the prior written approval of the SBA and the designated Contracting Officer of the U.S. Nuclear Regulatory Commission

(c) Payments, including any progress payments under this subcontract, will be made directly to the subcontractor by the U.S. Nuclear Regulatory Commission.

(End of clause)
(AV 1-1.713-3(e)(1))

52.252-2 CLAUSES INCORPORATED BY REFERENCE. (APR 1984)

This contract incorporates the following clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available.
