ATTN: Mgr., Nuclear Licensing
15760 West Power Line Street
Crystal River, FL 34428-6708

SUBJECT: NRC INTEGRATED INSPECTION REPORT 50-302/97-01
NOTICE OF VIOLATION

Dear Mr. Anderson:

On February 22, 1997, the NRC completed an inspection at your Crystal River 3 reactor facility. The enclosed report presents the results of that inspection.

During the six week period covered by this inspection period, your conduct of activities at your Crystal River facility was generally characterized as adequate. We are concerned, however, about five violations of NRC requirements that were identified. In the area of Operations, two violations were identified: one violation for clearance tagging requirements, which were inadequate to preclude personnel and equipment hazards and resulted in a valve being repositioned while under a red tag clearance, and one violation for failure to follow procedures, resulting in an inadvertent emergency diesel generator start. In the area of Maintenance, one violation was cited for failure to perform a surveillance for the spent fuel pool level. In the area of Engineering, two violations were cited: one violation for instrument setpoint calculation assumptions not being translated into procedures and one violation for inadequate corrective actions related to cable ampacity.

These violations are cited in the enclosed Notice of Violation, and the circumstances surrounding the violations are described in detail in the enclosed report. Please note that you are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. The NRC will use your response, in part, to determine whether further enforcement action is necessary to ensure compliance with regulatory requirements.

In addition, the enclosed Inspection Report identifies activities that violated NRC requirements that will not be subject to enforcement action because the licensee's efforts in identifying and/or correcting the violations meet the criteria specified in Section VII.B. of the Enforcement Policy. Therefore, no response with respect to these matters is required.
