Docket No. 50-333

Mr. John C. Brons
Senior Vice President -
Nuclear Generation
Power Authority of the State
of New York
123 Main Street
White Plains, New York 10601

Dear Mr. Brons:

SUBJECT: MAIN STEAM ISOLATION VALVE
LEAKAGE CONTROL SYSTEM DESIGN

Re: James A. FitzPatrick Nuclear Power Plant

In the process of looking through our files, we have discovered a Safety Evaluation (SE) which apparently was never issued. The SE summarizes our review of the FitzPatrick Main Steam Isolation Valve Leakage Control System (MSIVLCS) design, which was submitted by letter dated September 22, 1976. The SE concludes that the MSIVLCS design conforms to General Design Criteria 2, 4 and 54 of Appendix A to 10 CFR 50 and is therefore acceptable.

A copy of the subject SE is enclosed. The proposed Technical Specifications which you submitted in support of the MSIVLCS are being reviewed as a separate matter. We regret if this has caused you any inconvenience.

Sincerely,

Original signed by/

Domenic B. Vassallo, Chief
Operating Reactors Branch #2
Division of Licensing
