Gentlemen:

SUBJECT: DOCKET NO. 50-261

This acknowledges the receipt of your letter of January 2, 1986, which transmitted Revision 11 to the H. B. Robinson Physical Security Plan.

Our review of the changes has found portions of the changes to be consistent with the provisions of 10 CFR 50.54(p). One change is not consistent with the provisions of 10 CFR 50.54(p) as delineated in the enclosure to this letter. This was discussed between Mr. John Walker of your staff and Ms. Orysia Masnyk of the Region II staff on January 15, 1986. To preclude a violation of regulatory requirements, you must not continue to implement the change deemed inconsistent. Please revert to the commitment in your previously approved plan or, if desired, modify your plan to accommodate the enclosed comments and resubmit corrected plan pages as necessary to maintain plan continuity. Should you want to pursue the change deemed inconsistent, you must submit a request to the Commission's Office of Nuclear Reactor Regulation, under the provisions of 50.90 for amendment to your license.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the enclosure will not be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

Original Signed by
Roger D. Walker
