Mr. Hubert Miller, Regional Administrator
U. S. Nuclear Regulatory Commission
Region 1
475 Allendale Road
King of Prussia, PA 19406

SUBJECT: Limerick Generating Station, Units 1 and 2
Preliminary Replacement
Operator Program Qualification Statement

Dear Mr. Miller:

Enclosed is the preliminary (i.e. unsigned) Personnel Qualification Statement (NRC Form 398) for the Reactor Operator (RO) license candidate identified below. This candidate failed the Category B section of the license exam given at Limerick during the week of January 21, 1997 - January 24, 1997. Details of the waiver request for the portions of the exam on which the candidate passed are contained on the NRC Form 398. A current Certificate of Medical History (NRC Form 396), dated 11/27/96 is on file with the NRC.

A tentative re-examination date has been set for May 1, 1997.

<u>Name</u>	<u>Current Position</u>	<u>License Application</u>
Cramer, Michael A.	Equipment Operator (EO)	RO

This preliminary application is being sent in order to satisfy the specifications of examiner standards ES-202 part D.1 and D.2 as well as ES-204. The final certified application will be delivered to the Region 1 office no later than April 17, 1997.

If you have any questions please contact Pete Orphanos at the Limerick Generating Station, (610) 718-4010.

Very truly yours,

W. G. MacFarland IV, Vice President - Limerick Generating Station

#17 COMMENTS (continued)

#13 The candidate received in-depth JPM training and evaluation conducted between 3/3/97 and 3/31/97. This consisted of:

- Candidate reviewed his deficiencies noted on the exam given at LGS during the week of 1/21/97.
- Candidate completed eighty-four (84) hours of guided self-study.
- Candidate received twenty-four (24) hours of JPM practice in the simulator.
- Candidate received thirty-six (36) hours of JPM practice in the plant.
- Candidate passed four (4) evaluated JPM sessions in the plant and simulator settings, consisting of a total of twenty (20) JPMs and forty (40) JPM questions.
