OUTSTANDING SUBMITTALS LIST

Gentlemen:

Attached please find an updated listing of correspondence with NRR to which a written response is expected. The attachment is tabulated chronologically by Georgia Power Company's (GPC) submittal date. GPC is ready to discuss modifications to this status report and will promptly address any questions you might have regarding these licensing issues.

GPC acknowledges and appreciates the recent NRC efforts to complete licensing action on our submittals related to the editorial change to correct a typographical error on the HPCI surveillance Technical Specification and the code relief for Inservice Inspection. We respectfully request your continued efforts to expedite those priority items submitted in support of the upcoming Unit 1 outage, as noted in the attachment.

If you have further questions, please contact this office at any time.

Very truly yours,

L. T. Gucwa
