Dear Ms. Adensam:

EQUIPMENT QUALIFICATION AUDIT ACTION RESPONSE
HOPE CREEK GENERATING STATION
DOCKET NO. 50-354

The NRC and EG&G Idaho conducted the Hope Creek environmental qualification audit during the period of July 15-18, 1985. Pursuant to closure of audit action items identified at the audit exit meeting held on July 18, 1985, the following information is provided.

Enclosed for review is the Hope Creek Equipment Qualification Summary Report, Revision 3. This information responds to the audit action item regarding comments on the EQ SCEW/EESS sheets. The summary report will be revised one additional time in mid-December 1985 to incorporate new EESS sheets for equipment which is presently being qualified.

PSE&G is presently completing an audit of installed equipment to confirm that all the requirements relating to equipment qualification such as installation and traceability are followed. This audit is scheduled to be completed by mid-December. Progress towards completion and a schedule for submittal of the results will be provided via telecon by December 16, 1985.
