

AMCAST

INDUSTRIAL CORPORATION

CORPORATE CENTER

United States Nuclear Regulatory Commission
Material Licensing Branch
Division of Fuel Cycle and Material Safety
Washington, D.C. 20555

Subject: Renewal of License 34-10182-01
Expiration Date: 4/30/84

Dear Sirs:

GHR Division's program continues as in the past with the following exceptions:

1. Name of parent company was changed from Dayton Malleable, Inc. to Amcast Industrial Corporation on December 14, 1983. This was a change of name only; ownership and management remained the same.
2. License dated November 15, 1978, item 12. Change to read:
"Licensed material shall be used by, or under the supervision of, Samuel Howell."
3. Letter dated November 3, 1978: Emergency procedure - any incident involving loss or damage to sealed sources will be initiated by Samuel Howell. He will notify Dennis Bertram, Corporate Manager of Manufacturing Engineering and Environmental Affairs. Mr. Bertram will be responsible for determining appropriate action to be taken and to inform the NRC of the incident. Texas Nuclear Company will still be used for emergency service.
4. Application for license dated July 24, 1978: Change individual user to Samuel Howell, Maintenance Superintendent. Change radiation protection officer to Dennis Bertram, Corporate Manager of Manufacturing Engineering and Environmental Affairs. Training will still be by methods listed in items 8 & 9.

GHR Division requests its 1978 license be renewed as previously submitted, with the above changes. All correspondence concerning this should be directed to the writer.

SUMMARY

Prather stated in his 12/21/84 letter that the renewal should be discontinued, as the gauges were being shipped to Texas Nuclear.

He will now send NRC-314 with disposal info & request for license termination.
