SUBJECT Implementation of Air Force Single Radioactive Material Broad  
Scope License

TO USAF CLINIC/SGPB  
HANSCOM AFB MA 01731-5300

1. Reference ALMAJCOM-SOA/SG letter dated 30 Apr 1985, entitled "Single Air Force License for Radioactive Material".

2. The Nuclear Regulatory Commission (NRC) issued a single radioactive material license of broad scope to the USAF Radioisotope Committee on 26 June 1985, which effectively transfers authority and responsibility for the control of all radioactive material in the Air Force to the Committee. Effective 26 June 1985, all NRC Licenses issued to Air Force organizations are terminated and replaced with USAF Radioactive Material Permits.

3. This letter provides notification that your previous NRC License number 20-03095-02 with expiration date of 31-OCT-87, has been converted to a USAF Radioactive Material Permit number 20-03095-2AFP with new expiration date of 31-OCT-85. A new USAF Radioactive Material Permit will be issued to you when your permit expires and you file for a renewal. Your only actions required at this time are to attach this letter to your existing NRC License and to respond by separate correspondence with a verification of receipt of this notification. Send verification letter to HQ AFOMS/SGPR, Brooks AFB TX 78235-5000 within 15 days of receipt. Please note the change in mailing address for the USAF Radioisotope Committee and forward all future correspondence to this address.

4. Refer questions regarding this letter to Captain Donovan or Major Dunlap at AUTOVON 240-3331/2452.
