Docket No. 50-323, OL-DPR-82
Docket No. 50-133, OL-DPR-7
Diablo Canyon Units 1 and 2
Humboldt Bay Power Plant, Unit No. 3
Organizational Changes

Gentlemen:

In support of the transition from construction to operation of the Diablo Canyon Nuclear Power Plant, PGandE has reorganized the nuclear-related activities within the Facilities and Electric Resources Development Department. The primary purpose of this reorganization is to consolidate, under the Vice President, Nuclear Power Generation, all nuclear-related resources required to support safe and reliable operation of the Diablo Canyon Nuclear Power Plant and the decommissioning of Humboldt Bay Nuclear Power Plant. The reorganization includes providing ongoing engineering and construction support of the plants after the disestablishment of the Diablo Canyon Project, which is scheduled to occur when Diablo Canyon Unit 2 begins commercial operation.

Consequently, the following organizational changes and appointments have been made, and these positions now report to the Vice President, Nuclear Power Generation (VP-NPG).

1. Assistant to the Vice President

The Assistant to the VP-NPG provides general assistance to the VP-NPG, with particular emphasis on monitoring and evaluating plant activities to assure safe and efficient operation.

2. Plant Manager, Diablo Canyon

The Plant Manager, Diablo Canyon, has overall responsibility for all onsite activities including the review and scheduling of construction completion items. The Diablo Canyon Project Completion Manager will continue to manage construction completion items until Unit 2 begins commercial operation.

3. Plant Manager, Humboldt Bay

The Plant Manager, Humboldt Bay, has overall responsibility for all onsite activities.

4. Manager, Nuclear Operations Support

The Manager, Nuclear Operations Support, provides General Office staff support to the nuclear plants in various operations-related areas such as safety review, reactor analysis, operations engineering, emergency planning, radiation protection, and radwaste management.

5. Manager, Nuclear Engineering and Construction Services

The Manager, Nuclear Engineering and Construction Services, is responsible for overall project management of all engineering and construction work related to the Company's nuclear plants. This position will report to the Diablo Canyon Project Completion Manager until Unit 2 begins commercial operation.

6. Director, Nuclear Regulatory Affairs

The Director, Nuclear Regulatory Affairs, becomes the principal corporate interface with the Nuclear Regulatory Commission and other regulatory agencies on matters related to obtaining and maintaining licenses for the Company's nuclear plants.

7. Director, Nuclear Administration and Support Services

The Director, Nuclear Administration and Support Services, is responsible for providing administrative support to the Nuclear Power Generation Department, including General Office quality control and procurement, and project management services.

The above seven positions are shown on the enclosed organizational chart.

8. Others

The Manager, Quality Assurance, and Diablo Canyon Project Completion Manager will continue to report directly to the Executive Vice President, Facilities and Electric Resources Development.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

G. A. Manassis
