

November 15, 1985

MEMORANDUM OF UNDERSTANDING

1. This is an agreement between the U.S. Nuclear Regulatory Commission (NRC) and the National Treasury Employees Union (NTEU or Union) concerning the implementation of the proposal to reorganize the Office of Nuclear Reactor Regulation (NRR) within the NRC, as detailed in the proposal submitted by letter to Catherine Clark, NTEU, from Greg Benoit, NRC, dated October 2, 1985.
2.
  - a. The parties agree that the NRC will provide each unit employee in NRR a copy of his/her position description in the new organizational structure no later than 75 calendar days after the reorganization becomes effective.
  - b. In addition, NRC will notify NTEU when all PD's for employees assigned to NRR on the effective date of the reorganization have been issued. Employees will have 10 workdays subsequent to that date of notice in which to file grievances based on the NRR reorganization.
  - c. Any issues which would have been grievable/arbitrable as a result of the Reduction-In-Force/Reorganization will be grievable not later than the ten day period described in 2 b.
3. The parties agree that NRR will hold a series of discussion sessions with employees after the employee receives a copy of his/her new official position description. During these meetings, which shall be held at the Division level or lower, NRR management agrees to:
  - a. explain the functions and workloads of the various workunits;
  - b. discuss appropriate procedures for employees to request reassignments in situations where the employee may feel he/she has been assigned to areas where he/she lacks expertise and/or prior experience. A memorandum from the employee to the immediate supervisor forwarded thru the supervisory chain to the Director, Planning and Program Analysis Staff will satisfy this procedure.
  - c. discuss what training opportunities (both on-the-job and other) can be provided to employees to enable them to better perform in their new jobs.

NRR agrees to provide one day advance notice to the Union (a steward in NRR) of scheduled meetings including the time and location of such meetings via telephone. In situations where NRR is unable to provide a one day advance notice to the Union, simple advance notice to a NRR steward will be sufficient if NRR arranges for the steward to be relieved from his/her assigned duties to attend the meeting. If a NRR employee who is also a steward, is attending the meeting as an employee as described in #3 above, NRR will notify another steward to act as the Union representative.

PDR MISC

PDR

Nothing in this Section shall act to preclude NRR from holding additional meetings at higher organizational levels if it so desires.

4. The NRC agrees that the effective date of separation by reduction in force will be December 31, 1985. Where offers are made and accepted in the interim period between October 3 (date of issuance of RIF notice) and December 31 (date of effective date of RIF), the effective date of the reassignment will be made as soon as practicable after the date of acceptance.
5. The parties agree that priority consideration will be granted to NRR employees who have received RIF notices in accordance with NRC Appendix 4108, Part III, A., 4. These procedures include the following.
  - a. The Director of O&P will refer to the selecting official the SF-171 and performance appraisal of the priority individual to be considered before any other effort, including issuance of a vacancy announcement is made to identify candidates for the position; and will notify the priority individual of the referral.
  - b. The referred individual must be given bona fide consideration, and must be selected unless the selecting official determines that the selection would not be in the best interest of NRC, and this determination is approved by the Director, O&P.
6. This agreement shall become effective once signed by the parties.
