Gentlemen:

Subject: Inspection Report No. 030-17911/85-01

This refers to the routine, safety inspection conducted by Ms. Nancy Dennis of this office on August 9, 1985, of activities authorized by NRC License No. 37-01294-03 and to the discussions of our findings held by Ms. Dennis with yourself and Mr. Ken Vokac of your staff at the conclusion of the inspection, and to a subsequent telephone discussion between Mr. Vokac and Ms. Dennis on August 12, 1985, and between Mr. Jeff Goller, your Industrial Hygienist, and Ms. Dennis on August 16, 1985, and September 5, 1985, and your letter of August 14, 1985.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

In addition, our inspector examined periodic leak tests and inventory conducted for those nuclear gauges you possess under general license. We have no further questions regarding this matter.

Based on the telephone discussion between Mr. Vokac of your staff on August 12, 1985, and your August 14, 1985, letter, we understand that you plan to request termination of your license. Please discuss this matter in your reply to this letter.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
