

DEC 3 1985

Nebraska State Department of Health
ATTN: Gregg F. Wright, M.D.
Director of Health
301 Centennial Mall, South
Lincoln, Nebraska 68509

Dear Dr. Wright:

This refers to the acceptance appraisal conducted by Messrs. J. Blair Nicholas and Blaine Murray of this office during October 17-18, 1985, for the proposed NRC/State of Nebraska Environmental Monitoring Cooperative Agreement around Fort Calhoun Nuclear Station and Cooper Nuclear Station and to the discussion of the appraisal results with members of your staff at the conclusion of the appraisal on October 18, 1985.

Based on the appraisal results, we believe the State of Nebraska has the necessary personnel, equipment, and facilities to satisfy the conditions of the agreement. Therefore, we would like to hear from you regarding: (1) your interest in pursuing the proposed cooperative agreement, and (2) your response to our concerns identified in paragraph 3 of the enclosed appraisal report.

Assuming you are interested in the cooperative agreement, we propose that the environmental media portion of the cooperative agreement be added to the already existing TLD monitoring agreement effective January 1, 1986.

Should you have any questions concerning this appraisal, we will be pleased to discuss them with you.

Sincerely,
ORIGINAL SIGNED BY
ROBERT D. MARTIN

Robert D. Martin
Regional Administrator
