LOS ANGELES, CALIFORNIA 90025
(213) 478-0829

December 2, 1985

Attn: Docketing & Service Branch
Office of the Secretary
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

RE: Calvert Cliffs Nuclear Power Plant Units 1 and 2;
Docket No. 50-317 and 50-318

Dear Sir:

The Committee to Bridge the Gap is a public interest organization which has been involved in the Commission's ongoing assessment of the nuclear accident source term research. We are particularly concerned by Baltimore Gas and Electric's attempt to use this research as the basis for its November 18, 1985, request for reduction of its emergency planning zone.

We therefore request (a) that we be added to the service list for the above-cited dockets; and (b) that we be promptly informed of any opportunity to intervene or otherwise challenge BG&E's request.

Thank you.

Sincerely,

Steven Aftergood
Executive Director
