SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION
DOCKET NOS. 50-445 AND 50-446
CONTROL ROOM OPERATIONS

Designated original
Cm Trammel
12/6/85

Dear Mr. Dircks:

In your letter of July 19, 1985 concerning Information Notice 85-53 you addressed the subject of management's responsibilities for safe Control Room operations.

I want to personally assure you that the management of Texas Utilities considers the maintenance of high performance standards for Comanche Peak Control Room operators a matter of great importance. After receiving your letter, I verified that Texas Utilities has the proper procedures in place to require correct conduct in the CPSES Control Room. In addition, we are developing a corporate policy statement regarding conduct of operations in the Control Room which addresses the concerns raised in IE Notice 85-53 and contains specific management responsibilities for the implementation of the policy statement.

Thank you for bringing this matter to my personal attention. Texas Utilities intends to maintain proper conduct of operations in the CPSES Control Room.

Sincerely,

Michael D. Spence
