Re: Transmittal of Modified Closure Plan for the
Elkem Metals Building 78 SDMP Site
Marietta, Ohio

Dear Mr. Pittiglio:

Enclosed is revised the Closure Plan for the Elkem Metals Building 78 SDMP site, located in Marietta, Ohio.

Two versions of the report are submitted. One version shows changes from the August 1996 submittal, with deletions shown as strikeouts and additions shown as underlined. In a few instances, there is text with both strike-through and underline; this text was added in interim discussions about revisions and then later deleted. The second version of the report has been cleaned up, in final form.

We have completed the survey work described in this closure plan and are compiling the results into reports. We plan to issue the reports in two phases. The first phase will include the outdoor areas and the north Quonset hut. The second phase will include Building 78 and the south Quonset hut.

Should you have questions regarding this activity, please contact me at (304)747-5326.

Very truly yours,

S. G. Gilbert, P.E.
Program Manager
