Virginia Electric and Power Company  
ATTN: Mr. W. L. Stewart, Vice President,  
Nuclear Operations  
P. O. Box 26666  
Richmond, VA 23261

Gentlemen:

SUBJECT: CONFIRMATION OF MEETING - DOCKET NOS. 50-338, 50-339, 50-280,  
AND 50-281

This letter refers to the telephone conversation on February 12, 1986, between Ms. Nancy C. Clark of your staff and Mr. Virgil L. Brownlee of this office concerning a management meeting to be conducted at the Region II Office on March 3, 1986, at 10:00 a.m. (EST). We requested this conference to discuss the results of recent reactor operator requalification examinations at Surry and North Anna and corrective actions which will be implemented to assure continuing operator competence.

Our examination reports dated January 31 and February 4, 1986, forwarded the results of our examinations and concluded that your requalification program is marginally acceptable. The purpose of our requalification examinations is to assess the adequacy of your requalification training program. The NRC considers that the marginal performance of the operators is due to deficiencies in your training program. Please regard this as the central issue for discussion at our meeting.

Should you have any questions regarding these arrangements, we will be pleased to discuss them.

Sincerely,

(original signed by JNGrace)
