The Board of Directors
Union Carbide Corporation

We have examined the consolidated balance sheet of Union Carbide Corporation and subsidiaries at December 31, 1984 and the related consolidated statements of income and retained earnings and of changes in financial position for the year then ended, and have issued our report thereon dated February 19, 1985. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In compliance with Appendix A of 10 CFR Part 40 of the Nuclear Regulatory Commission Regulations, we compared the data in Items 5, 6 and 9 of the letter from the Corporation's Chief Financial Officer dated October 29, 1985 in support of the Corporation's use of the financial test to demonstrate financial assurance, as specified in such regulations, with the audited financial statements. Because there were no reconciling items between the audited financial statements and the data in Items 5, 6 and 9 of the letter from the Corporation's Chief Financial Officer, a reconciling schedule was not prepared.

In connection with the procedure referred to above, no matters came to our attention that caused us to believe that the specified data should be adjusted.

We understand that this report is intended solely to assist you in evaluating the Corporation's adherence to the requirements of Appendix A of 10 CFR Part 40 of the Nuclear Regulatory Commission Regulations.
