Docket Nos. 50-456
and 50-457

Commonwealth Edison Company
ATTN: Mr. Dennis L. Farrar
Director of Nuclear Licensing
P.O. Box 767
Chicago, Illinois 60690

Gentlemen:

As you are aware, 10 CFR 170 of the Commission's regulations for license and inspection fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that for applications for permits, licenses, facility reference design approvals, and special projects which have been on file with the Commission for review for six months or longer, billings would be made at six-month intervals or when the review is completed, whichever is earlier.

Consistent with the requirements of 10 CFR 170.12(b), we have completed the cost analysis for the Braidwood 1 and Braidwood 2 OL application reviews for the period June 24, 1984 through December 22, 1984. The costs through that period are \$270,782 for Unit 1 and \$99,504 for Unit 2. The enclosures show a breakdown of the review costs by program office. Based on a reexamination of the costs from the previous billing period by the Office of Nuclear Reactor Regulation, \$150 has been subtracted from the Braidwood 1 bill. The Office of Resource Management has been notified to bill your Company \$270,632 for Braidwood 1 and \$99,504 for Braidwood 2. When making payment, please make reference to the bill numbers.

Sincerely,

Original Signed by
Wm. O. Miller

William O. Miller, Director
License Fee Management Staff
Office of Administration
