Attention: Mr. W. T. Crow, Section Leader  
Uranium Process Licensing Section

Dear Sir:

Reference: NRC License SNM-1097, Docket #70-1113

Subject: LICENSE AMENDMENT REQUEST - REVISION #13

On November 8, 1985, General Electric Company Nuclear Fuel Manufacturing Department submitted revisions to the GE-NFMD "Radiological Contingency & Emergency Plan". These changes did not decrease the effectiveness of the Plan and, therefore, did not require NRC approval prior to implementation. In order to accommodate the 11/8/85 submittal, attached are applicable revisions to Part I of the GE-NFMD application referenced in License Condition 9 of NRC License SNM-1097 issued on June 29, 1984. Applicable, updated index pages for Part I are also attached.

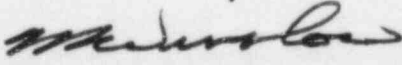

As this submittal fulfills a reporting commitment and is not a license amendment request, per se, no license fee is deemed necessary.

General Electric personnel would be pleased to discuss this matter further with you and your staff as deemed necessary.

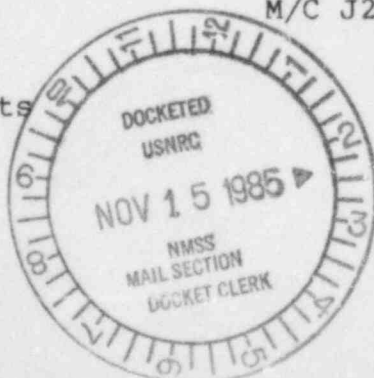

Very truly yours,

GENERAL ELECTRIC COMPANY
