OSP

Dear Mr. Crump:

This is in response to your letter of March 13, 1997.

LB 1044, as I previously stated in my January 28, 1997 letter to you, gave the authority for regulation of radiation to the Department of Health and Human Services Regulation and Licensure. This was done in the Radiation Control Act. LB 1044 specifies that all contracts and agreements continue with the successor agency. This includes the Memorandum of Understanding with the Department of Environmental Quality. There are no plans to change it.

Dr. David P. Schor has been appointed to replace Dr. Mark Horton as the individual who will direct the review and decision process for the Department, and to work with the Director of Environmental Quality. The state's review activities are continuing as planned. We will continue to contact you as appropriate for discussion of any changes which may be made in the future.

Sincerely,

*Cheryl K. Rogers*Cheryl K. Rogers, LLRW Program Manager
