Mr. Vandy Miller
Chief, Material Licensing Branch
Division of Fuel Cycle and Material Safety
United States Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Miller:

This letter and the enclosed application for amendment in total of this institution's Type A, specific license of broad scope, are sent to you in compliance with your Program Code: 02110.

The statements made herein are true and accurate to the best of our knowledge and represent this institution's intention to fulfill the requirements of the United States Nuclear Regulatory Commission for the privilege of using radioactive material for medical diagnosis, treatment, research and animal research.

We hope that you will find this presentation format acceptable. It will allow for the simple addition or replacement of pages as license amendments are requested. In this way, both your copy and our copy will remain complete and current for license inspection purposes.

If any areas of consideration in this material are inadequate or unacceptable, we will promptly make necessary changes to satisfy your needs.

Sincerely yours,

William R. Fears
